Why not host a headband party and invite your favorite friends over for some creative crafting?

Before you Begin

♥ It is helpful to have a pair of scissors & a roll of tape or a few paper clips handy.

♥ Use your scissors to cut the ribbons.

♥ The tape or paper clips can be used to hold the ribbons in place while you wait for the glue to dry.

Your headbands come attached to a backer card. Save this insert to use as a work station. It's the perfect place to rest your headbands while you wait for the glue to dry.

Remember, work with clean hands on a clean work surface.

Although the glue is washable, it's a good idea to keep a damp paper towel handy for clean up.

Tip
Since the headbands are satin, any extra glue will leave a dark spot on the fabric. Wipe off any extra glue with a damp cloth.
