

Driver 7b

Identifying the *Independent* **Variables**

Experimental Design

- 1. **Control** - all variables are held constant except for the independent variable
- 2. **Independent** - the variable that is being manipulated
- 3. **Dependent** - the variable that is being measured
- 4. **Control** - all variables are held constant except for the independent variable
- 5. **Independent** - the variable that is being manipulated
- 6. **Dependent** - the variable that is being measured

Control
