Revised 30/12/2019 (E)

# General Assembly Guidelines

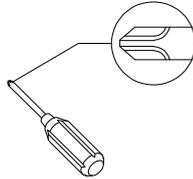

- I. Ensure that all parts and hardware are available before beginning assembly.
- II. Follow each step carefully to ensure the proper assembly of this product.
- III. Two people are recommended for ease in the assembly of this product.
- IV. The three main types of hardware used to assemble this product are : wood dowels , screws and bolts.
- V. The provided glue is to secure wood dowels in place . When first inserting dowels , locate the appropriate hole for the dowel , place a small amount of glue in the hole and insert the dowel . Wipe away excess glue immediately.

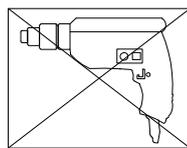

In future assembly steps when dowels are necessary to attach assembly parts together , place a small amount of glue on the end of the dowel before attaching parts together . Wipe away excess glue immediately.

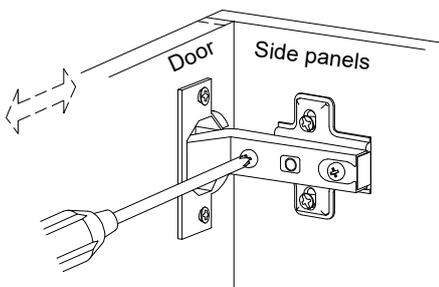

- VI. A Phillips head screwdriver is required for the assembly of this product .

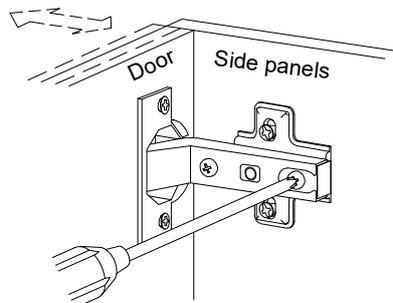

- VII. Power tools should not be used to assemble this product .

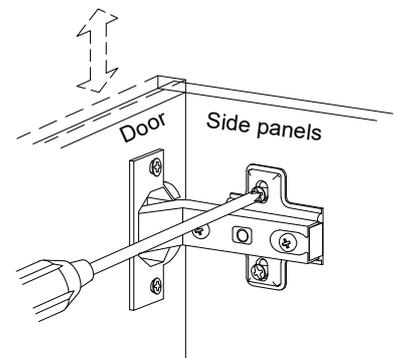

- VIII. Concealed hinges are three-way adjustable.

Horizontal  
by screw adjustment

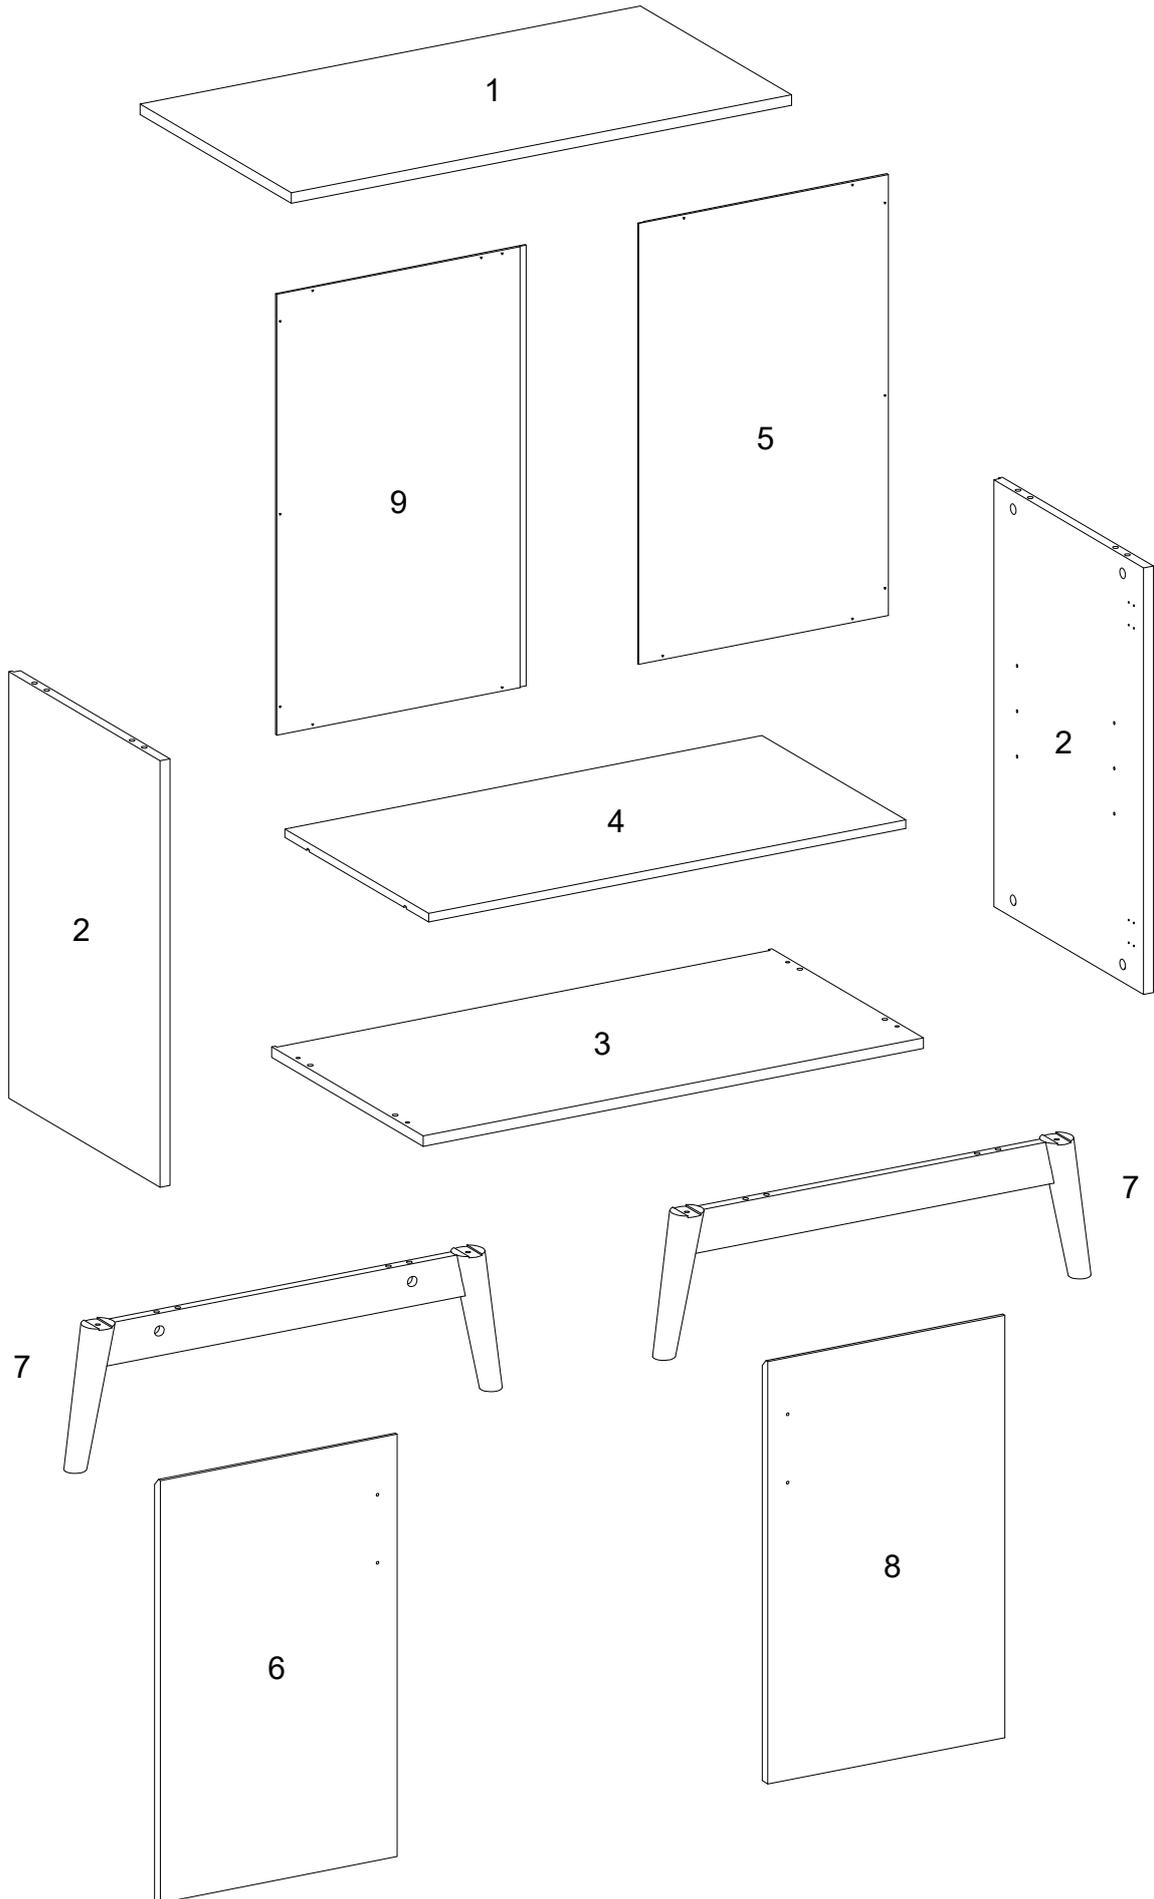

In-and-Out  
by loosening the hinge-arm  
mounting screw or via cam  
adjustment

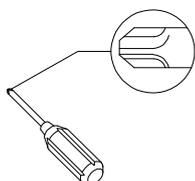

Vertical  
Via slots in the mounting  
plate or via cam adjustment
