2023

Telluric Pinot Noir

Our 2023 Telluric Pinot Noir is energetic and fresh with a *pronounced uplift from mid until finish*.

The 2023 growing season began cool and dry, with a delayed bud break around May 1st due to a cold, wet spring. A sudden warm-up in late April led to rapid vine growth and one of the warmest, driest Mays on record. Flowering was early and successful, setting the stage for a strong vintage. Summer remained warm and dry, with minimal weather challenges aside from a brief August heat spike. Harvest started early on August 24th and wrapped up in just 28 days—a record pace. Fruit came in clean and flavorful, producing fresh, balanced wines with ripe tannins and wide appeal.

OUR VINEYARD

Nestled in the eastern foothills of Oregon's Coastal Range, on the wild western edge of the Yamhill-Carlton AVA, the range's peaks to the west and south buffer maritime winds and rain from the Pacific Ocean, creating a more temperate growing season distinct from neighboring vineyard sites. Planted in 2005-2006 to Pinot Noir and Chardonnay Dijon clones, the 194-acre vineyard perches in thin marine sedimentary soils, and diversity of block exposures and elevation offer a diverse palette for our farming and winemaking team.
