INSTRUCTION MANUAL

4.5" In-Dash Double-DIN DVD/MP3/CD Receiver
with USB, SD Memory Card
Ports and Front Panel AV Input

1. HANDLING COMPACT DISCS

MOISTURE CONDENSATION

On a rainy day or in a very damp area, moisture may condense on the lenses inside the unit. Should this occur, the unit will not operate properly. In such a case, remove the disc and wait for about an hour until the moisture has evaporated.
NOTES ON CDs

1. A dirty or defective disc may cause sound dropouts while playing. To enjoy optimum sound, handle the disc as follows.
   Handle the disc by its edge. To keep the disc clean, do not touch the surface (P.1).

P. 1
2. Do not stick paper or tape on the disc (P.2).

P. 2

3. Do not expose the discs to direct sunlight or heat sources such as hot air-ducts, or leave them in a car parked in direct sunlight where there can be a considerable rise in temperature inside the car (P.3).

P. 3

4. Before playing, clean the discs with an optional cleaning cloth. Wipe each disc from the centre out (P.4).

P. 4
5. Do not use solvents such as benzine, thinner,commercially available cleaners, or antistatic spray intended for analog discs.

NOTES ON DISCS

If you use the discs explained below, the sticky residue can cause the CD to stop spinning and may cause malfunction or ruin your discs.
Do not use CDs that have a sticky residue on the surface (for example, from peeled-off stickers or from ink, or glue leaking from under the stickers).
Paste or sticky residue.

P. 5

Do not use CDs with old labels that are beginning to peel off.

Stickers that are beginning to peel away leave a sticky residue (P.6).

P. 6

Do not use CDs with labels or stickers attached.

Labels are attached (P.7).

P. 7

Do Not Use Special Shape CDs

Be sure to use round shape CDs only. Do not use any special shape CDs. Use of special shape CDs may cause the unit to malfunction.(P.8).

P. 8

CD-Rs and CD-RWs which have not undergone finalization processing cannot be played. (For more information on finalization processing, refer to the manual for your CD-R/CD-RW writing software or CD-R/CD-RW recorder.) Additionally, depending on the recording status, it may prove impossible to play certain CDs recorded on CD-R or CD-RW.

2. INSTALLATION

- Before finally installing the unit, connect the wiring temporarily and make sure it is all connected up properly and the unit and system work properly.
- Use only the parts included with the unit to ensure proper installation. The use of unauthorized parts can cause malfunctions.
- Consult with your nearest dealer if installation requires the drilling of holes or other modifications of the vehicle.
- Install the unit where it does not get in the driver's way and cannot injure the passenger if there is a sudden stop, like an emergency stop.
- If installation angle exceeds 30 ˚ from horizontal, the unit might not give its optimum performance.

30˚
- Avoid installing the unit where it would be subject to high temperature, such as from direct sunlight, or from hot air, from heater, or where it would be subject to dust dirt or excessive vibration.
- Be sure to remove the front panel before installing the unit.

DIN FRONT/REAR-MOUNT

This unit can be property installed either from Front (conventional DIN Front-mount) or Rear (DIN Rear-mount installation, utilizing threaded screw holes at the sides of the unit chassis). For details, refer to the following illustrated installation methods A and B.

DIN FRONT-MOUNT (Method A)
Installation the unit
1. Dashboard
2. Screw
1. Dashboard
2. Nut (5mm)
3. Spring washer
4. Screw (5x15mm)
5. Screw
6. Support Strap
   Be sure to use the support strap to secure the back of the unit in place. The strap can be bent by hand to the desired angle.
7. Plain washer

Trim Plate Installation:

Push the trim plate against the chassis until it is fitted**.**
You must do this before you install the front panel, otherwise it can't be attached.

5

DIN REAR-MOUNT (METHOD B)

Installation using the screw holes on the sides of the unit.
Fastening the unit to the factory radio mounting bracket.

Factory radio mounting bracket
Screw
Screw
Hook
Hook
Dashboard or console

Note: the mounting box, outer trim ring,and half-sleeve are not used for this installation.

**Note:** The mounting box, metal half sleeve, hook & screws are not included in the packnig.

DETACHABLE CONTROL PANEL (D.C.P.)
Removing The Detachable Control Panel (D.C.P.).

PANEL RELEASE BUTTON
1. Turn the power off
2. Press the D.C.P. release button
3. Remove the D.C.P.

Attaching the DCP

1. Attach the panel at the right side first, with point B on the main unit touching point A on the D.C.P. (As shown on the digram).
2. Then press the left side of D.C.P. onto the main unit until a click sound is heard.

CAUTION

- DO NOT insert the D.C.P from the left side. Doing so may damage it.
- The D.C.P can easily be damaged by shocks. After removing it, place it in a protective case and be careful not to drop it or subject it to strong shocks.
- When the release button is pressed and the D.C.P is unlocked, the car's vibrations may cause it to fall. To prevent damage to the D.C.P, always store it in a protective case after detaching it.
- The rear connector that connects the main unit and the D.C.P is an extremely important part. Be careful not to damage it by pressing on it with fingernails, pens, screwdrivers, etc.
Socket

Note:
If the D.C.P is dirty, wipe off the dirt with soft, dry cloth only. And use a cotton swab soaked in isopropyl alcohol to clean the socket on the back of the D.C.P.

IMPORTANT
These 2 screws are used to prevent damage to the CD mechanism during transportation Please make sure to remove the 2 screws before installing the unit into the vehicle. DO NOT insert a CD into the unit before removing the 2 screws.

3. ELECTRICAL CONNECTION

a. Make sure your car battery is a 12 volt (6 filler caps) negative ground system (if not, a converter will be necessary).
b. Before starting wiring connections, disconnect the power supply by removing the fuse from the fuse box.
c. Connect the power wire to one of the extra terminals of the fuse box.
d. Connect the black ground wire to a metal part of the car. It is important to make good contact.
e. Make other wiring connections as shown.
f. If your car does not have ISO connector, you can purchase it from car accessory shops.

Notes: INCORRECT WIRING OR OPERATION WILL VOID THE WARRANTY OF THIS UNIT.

(CAR UNIT BACK SIDE)
FUSE

Fuse Replacement:

To replace the fuse, pull out the blown fuse from the socket. Insert a new one with same rating

RESET BUTTON

The RESET button is located on the main unit (as shown on the diagram). To press it vertically with a ballpoint pen or metal object to activate it. The reset button should be activated for the following reasons:

- Initial installation of the unit when all wiring is completed.
- All the function buttons do not operate.
- Error symbol on the display.
   Note: If you press the RESET button, and the unit still cannot function normally, please use a cotton swab soaked in isopropyl alcohol to clean the socket on the back of the control panel.

 You can press the Numeric buttons to select the file you want to play. For example, if you desire the 15th track in current list, press the "10+" button once, then press "5", the 15th starts playback.

NOTE: When a picture is playing or paused, press the Arrow buttons to change the display angle:

10. MMC/SD CARD & USB DEVICE OPERATIONS

START THE USB DEVICE MODE

1.The USB mini socket is accessible as indicated in picture 1.(P.1)

2.Plug in the USB drive / device completely as indicated in picture 2(P.2) and display will show "USB" to indicate that the USB drive / device is being plugged in correctly & the download has begun.

3.Does not matter what mode the unit is in, once a USB drive / device is being plugged into the unit, unit will automatically switch to USB mode.

4.All the USB files playback function is same as normal disc playback.

Warning: Excessive weight or size USB drive/device may cause permanent & serious damage to the unit and may cause access to the buttons on the front panel impossible. User must use an extension cable (provide by USB device manufacturer) to connect with USB socket to prevent any damage cause.
TO STOP USB PLAYBACK

1.If the USB drive / device is unplugged, the unit will automatically switch to radio mode. Or user can use mode button to switch to other modes.
2.The user can use the mode button to choose USB mode (only if USB drive / device is inserted in the unit) or any other modes, when they are in any mode.

USB SPECIFICATION
* SUPPORT MAX IG USB FLASH MEMORY
* SUPPORT MAX 999 SONGS
* USB 1.1 DEVICE SUPPORT
* USB 2.0 DEVICE SUPPORT
  (TRANSFER SPEED SAME AS VER 1.1)
* FILE MANAGER: FAT12/FAT16/FAT32

CAUTION

1.Always unplugg the USB gently from the unit, excessive force used will cause permanent & serious damage to the unit & the USB drive / device.
COMPATIBILITY

Due to the fast changing technology world, this unit may or may not be compatible to all the USB drive / device available with all the future technology, especially those USB drive / device which require to install a driver. Always choose a compatible USB drive / device which is compatible with this unit.

START THE SD/MMC MODE
1.Press panel release button to release the front panel.(P.4)

2.The SD/MMC card slot is located on top of the front panel as indicated in (P.5).

3. Insert the SD/MMC card into the card slot in the correct direction until a "CLICK" sound is heard.

4.Close the front panel.

5. The display will show "CARD" to indicate that the SD or MMC card is correctly inserted. Once the SD or MMC card is inserted, the file will automatically loaded & playback will also start.

6. Does not matter what mode the unit is in, once a SD or MMC card is being inserted in the unit, unit will automatically switch to SD / MMC mode.

7. All the SD / MMC files playback function is same as normal CD or Multi-Media disc playback.

TO STOP SD/MMC CARD PLAYBACK
1.Push on the end of the SD or MMC card to eject the SD or MMC card. Once the SD or MMC card is taken out, the unit will automatically switch to previous mode.

2.User can use the mode button to choose SD / MMC mode (only if SD or MMC is inserted in the unit) or any other modes, when they are in any mode.

SD/MMC SPECIFICATION
* SUPPORT MAX 4G SD/MMC CARD
* SUPPORT MAX 999 SONGS

CAUTION

2.Please make sure to insert the SD or MMC card in the correct direction / orientation as indicated in picture 7(P.7). Wrong insert will cause permanent & serious damage to the unit & the SD or MMC card.

4) Press the Arrow buttons to highlight the Exit Setup option, then press Enter or Setup again to exit Setup Menu.

NOTE: When setup, the pressing setup buttons will turn off the setup menu, while the choices that have been changed will be saved.

Setup Items Introduction

1) SYSTEM SETUP

The system setup options are illustrated below:

TV SYSTEM

According to the Color System of the TV, you can choose the TV System.

1. NTSC: Choose this settings if your Multi-Media player is connected to a NTSC TV.
2. PAL: Choose this settings if your Multi-Media player is connected to a PAL TV.
3. AUTO: Choose this settings if your Multi-Media player is connected to a multi-system TV. The default setting is NTSC.

SCREEN SAVER

If the screen saver is on, when your disc player is in Stop, Open, or No Disc state, or there is a frame frozen for more than 30 minute, the screen saver will be displayed. This feature can protect the screen from damage.

- ON: Choose this setting to activate the screen saver.
- OFF: Choose this setting to cancel the screen saver

  The default setting is ON.

TV TYPE

- 16 : 9 (Wide Screen): Choose this setting if your Multi-Media player is connected to a wide screen TV. If you choose this setting and you don't have a wide screen TV, the images on the screen may appear distorted due to vertical compression.
- 4 : 3 LB (Letter Box): Choosing this setting if your Multi-Media player is connected to a normal ratio TV. connector You'll see the movies in their original aspect ratio (height-to-width ratio). You'll see the entire frame of the movie, but it will take up a smaller portion of the screen vertically. The movie might appear with black bars at the top and bottom of the screen.
- 4 : 3 PS (Pan & Scan): Choosing this setting if your Multi-Media player is connected to a normal ratio TV. You can fill the movie to the entire screen of your TV. This might mean that parts of the picture (the left and right edges) won't be seen.

NOTE:
- The image display ratio is related to the recorded disc format. Some disc can not display images in the aspect ratio you choose.
- If you play a disc recorded in 4:3 format on a wide screen TV, black bars will appear on the left and right side of the screen.
- You must adjust the screen setting depending on the type of the television you have.

PASSWORD

The password option is initialized locked, and you cannot set the ratings limit or change the password. In order for the Ratings feature work, the password mode must be turned on. If you want to set the ratings limit, you will need to enter the default password, which is 0000, then press ok to confirm. To change the password, you will be prompted for the old password, then be prompted for a new. Enter a 4-digit number (this is your password).

RATING

The Rating feature is a rating limit system, like movie ratings. It works with discs that have been assigned a rating. This helps you control the types of Discs that your family watches.

- There are eight rating options: 1. KID SAFE, 2. G, 3. PG, 4. PG-13, 5. PG-Q, 6. R, 7. NC-17, 8.ADULT.
- Select the ADULT option to cancel the rating limit.

The default setting is ADULT.

NOTE: If the password option is locked, you cannot set the ratings limit; the rating limit does not work when the password option unlocked.

DEFAULT

Choose this option to resume all the setup options to default settings.
