

Plant-A-Pet

UNICORN

Decorate, Plant and Grow your own petite pet.
Save the box! With adult assistance, carefully pop out the unicorn bed on the side of your box!

Make sure the pot is clean and dry.
Personalize your pet and unicorn bed with stickers! Press down firmly.

PLANT YOUR PET:

- Open the bag of potting mix.
- Use the dropper to add water until it clumps together like clay.

PRO-TIP:

If the potting mix gets too wet, lay a paper towel over it to soak up excess water.

- Sprinkle just a **FEW** seeds on top of the potting mix. Save the rest to replant later.

NOTE: If you plant too many seeds, too close together, your pet may not grow.

Use your dropper to keep the seeds and plants watered.
You should start to see growth in as little as 3-5 days!
