

## TURN IPAD INTO AN ELEGANT KIOSK.

I PORT Table Mount is the most elegant way to transform iPad into a stationary kiosk. Meticulously machined from a single piece of aluminum, Table Mount displays iPad in a portrait orientation with the option to lock the entire mount in place for an extra layer of security.

Table Mount is powered via USB power supply or PoE for power and data options from a single CAT cable and Redpark Splitter. Table Mount is available in a silver finish making it the perfect complement to any corporate or office environment.
