RAINBOW MOSAIC

Practice the power of positivity!
 This complete set includes everything you need to
 make your own mosaic masterpiece.

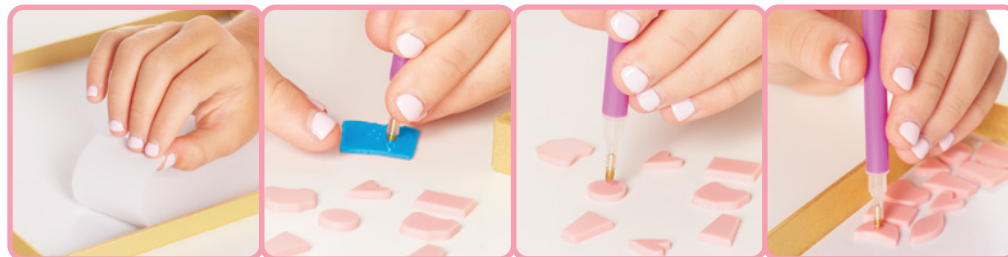

GETTING STARTED

To begin, start by sorting all your mosaic tiles by color.

The mosaic tiles have a top and bottom. The bottom is flat while the top is textured with rounded edges. Flip all the tiles so the top is facing up, as shown.

ASSEMBLE

Peel off the protective cover to reveal the adhesive on the gold frame.

Peel the film off the sticky putty. Press and twist the tip of the stylus into the putty to fill it.

Pick up tiles with the tip of the putty filled stylus. (When it stops working, refill it with more putty.)

Place the gems on the adhesive. When finished, press down on the tiles so they stay in place.

PLACE MOSAIC TILES

Work in sections. As you complete each color, move to the next section.

You can follow this example as a guide. Save a few of the star shaped tiles from each color so you can scatter them in the white "clouds" as accents.

PRO TIP:

Make sure tiles are close together so the gaps are small. This will ensure you have enough glitter glue to fill all the gaps

GLUE

Use the glitter glue to fill in the spaces between the tiles. Twist the cap to open. Point the tip of the bottle and squeeze into the spaces between the tiles and around the frame. This will seal the mosaic tiles in place and add sparkles to your mosaic art.

Use the squeegee to move glue around the mosaic, filling in any gaps between the tiles, as shown.

Allow the glitter glue to fully dry.

DECORATE

Decorate your finished mosaic with the puffy stickers. What phrase will you create?
