Central Air Conditioner

Visit continentalheatingandcooling.com and see our Professional Support Center for the latest installation manuals, specification sheets and additional information.

CT Series 14 SEER Central Air Conditioner

Continental's CT Series 14 SEER Central Air Conditioners reliably cool and dehumidify your home throughout the warmer seasons. Whisper quiet operation and a natural grey color allow CT Series air conditioners to blend into outdoor living spaces as they effortlessly maintain comfortable temperatures inside the home.

Competitive Advantages

- WHISPER QUIET™ Operation
- Highest quality filter drier in the industry
- Motor assembly is removable from top of unit for fast and easy servicing
- Made with environmentally conscious, chlorine-free refrigerant R-410A which reduces power consumption and increases the durability of your compressor
- Service valves and refrigerant connections are located outside the cabinet for easy accessibility and servicing
- Electrical connections are easily accessible through a removable service panel

Features and Benefits

- 18,800 to 53,500 BTU's
- 14 SEER Efficiency
- 1.5 to 5 Tons
- Advanced Coil Technology
- Industry Leading Compressor

Quality Filter

Continental air conditioners use industry leading filter driers which work to remove unwanted acids, dirt, particle debris and other contaminants from the refrigerant and are measurably superior to any other filter on the market.

Swept Fan Blade TECHNOLOGY

Continental air conditioners are made with modern fan blade technology. The unique swept shape of the blades make Continental air conditioners quiet as they efficiently provide increased air flow. With quality and longevity in mind, Continental's swept fan blades are made with a plated steel hub and aluminum blades for long lasting durability.
