

PROLOGUE

The first part of the book discusses the historical context of the study, including the role of the state and the impact of globalization. It also examines the theoretical framework used in the research, drawing on insights from political science and sociology. The author argues that the current state of affairs is a result of a long-term process of institutionalization and path dependency.

CHAPTER 1

This chapter introduces the research methodology and the data sources used in the study. It details the sampling strategy and the data collection process, which involved a combination of quantitative and qualitative methods. The author also discusses the limitations of the data and the potential biases that may have influenced the results.
