

# Push/Pull Tub Stopper and Trim Ring

## Parts List

- A. Stopper Assembly
- B. Conversion Screw
- C. Pre-Cut Double-Sided Tape

## Installation Instructions

1. Unscrew the stopper assembly (A) from the spud.
2. Determine which thread of the conversion screw (B) matches with the drain body and then connect the other end to the stopper assembly (A).
3. Remove the protective film from one side of the pre-cut double-sided tape (C), stick it to the back of the stopper assembly (A), and press firmly.
4. Remove the protective film from the other side of the pre-cut double-sided tape (C) and press the stopper assembly (A) on top of the spud firmly.
5. Test for leakage.
