HYPERLITE SPECIFICATIONS

HYPERLITE™

TYPE IA 300 LBS + IAA 375 LBS | EXTENSION LADDER | OSHA + ANSI COMPLIANT**

**Little
Giant**
Ladder Systems

PRODUCT DESCRIPTION

The Little Giant® HyperLite® is designed with safety and ease of use in mind, so you can focus on the task at hand rather than worrying about your ladder. The HyperLite is available in IA and IAA ratings.

16FT 20FT 24FT 28FT
32FT 36FT 40FT

LEAN, MEAN AND HI-VIZ GREEN

1. DOUBLE-PULLEY SYSTEM

By moving the pulley to the side of the ladder, the rope stays away from your feet. Incorporating a double-pulley gives you a mechanical advantage, making adjusting the ladder easier.

Not included on the 16' IA and 16' IAA models

2. NON-CONDUCTIVE, HI-VIZ GREEN FIBERGLASS

Our lightweight fiberglass increases visibility and lets you work safely around electricity.

3. BUBBLE LEVEL

With bubble levels, you will always know if your ladder is level before you begin climbing.

Bottom level on all models. Side level on IAA models only.

4. GROUND CUE®

Provides an audible "click" that alerts you when you have reached the bottom step of the ladder.

Only on IAA models

5. SURE-SET™ SPIKE FEET

Adds extra stability on job sites and can be used in either the pad or spike foot position.

Only on IAA models

ADD-ON OPTIONS

- The Claw
- Ratchet Levelers
- Auto Levelers
- Limited Arrest System

 NON-CONDUCTIVE FIBERGLASS
