

1. Introduction
 This document provides a comprehensive overview of the project's objectives, scope, and methodology. The primary goal is to analyze the impact of the proposed changes on the existing system. The scope of the project is limited to the development and implementation of the new features, excluding the hardware infrastructure. The methodology adopted is a structured approach, involving the following phases:

Phase	Start Date	End Date	Status
Requirement Gathering	2023-01-15	2023-02-15	Completed
System Design	2023-02-16	2023-03-15	In Progress
Development	2023-03-16	2023-05-15	Not Started
Testing	2023-05-16	2023-06-15	Not Started
Deployment	2023-06-16	2023-07-15	Not Started

2. Objectives

The main objectives of this project are:

- To improve the user interface and user experience.
- To enhance the system's performance and scalability.
- To ensure data security and integrity.
- To provide a robust and reliable system.

The project will be managed using a agile methodology, with regular communication and reporting to the stakeholders. The project team consists of the following members:

- Project Manager: [Name]
- System Analyst: [Name]
- Developer: [Name]
- Tester: [Name]
