

I. Product Description

CRC Food Grade Contaminant & Label Release is designed to remove dirt, grease, oils, adhesives and other contaminant from machinery and electrical components in the food industry.

CRC Food Grade Contaminant & Label Release penetrates and evaporates quickly leaving a thin, non-conductive film that protects surfaces from re-contamination and minimises equipment downtime.

The plastic-safe formula is safe for use on electronic and electrical components such as connectors, terminals, plugs, jacks, printed circuit boards, switch boards, potentiometers, laboratory and test equipment used in food processing and other clean environments.

II. Features & Benefits

- Removes dirt, grease, oils & adhesives
- Prevents re-contamination
- Plastic-safe
- Penetrates and evaporates quickly
- Non-toxic, non-staining, colourless, low odour
- Recommended for use where incidental contact with food may occur
- Asure Quality Approved – Food, Beverage, Dairy
- MPI Approved C26 – All Animal Product Except Dairy

III. Application and Directions

Read entire label before using this product.

1. Spray surface evenly with a light flow.
2. Apply the minimum amount of product required to accomplish the desired result.
3. Wipe surface or allow remaining product to run off.

IV. Typical Properties and Characteristics

Flash Point	13°C
Plastic Safe	Safe on most plastics (test small area)
Propellant	Carbon Dioxide

V. Package Description

Part Number	Size
3103	400ml

CRC Industries NZ, Auckland NZ

VI. *Special Precautions*

Danger: Extremely flammable aerosol. May be harmful if swallowed. May be harmful in contact with skin. May be harmful if inhaled. Causes skin irritation. Causes serious eye irritation. May cause drowsiness or dizziness.

Aerosol Cans:

Do not puncture, incinerate or store above 50°C. Exposure to high temperatures may cause can to burst. Do not place in direct sunlight or near any heat source. Aerosol cans will conduct electricity. Keep away from all live electrical sources including battery terminals, solenoids, electrical panels and other electronic components. Failure to observe this warning may result in serious injury from flash fire and/or electrical shock.

First Aid:

Eye Contact – Immediately hold the eyelids apart and flush the eye continuously for at least 15 minutes with fresh running water. Ensure complete irrigation of the eye by keeping eyelids apart and away from eye and moving the eyelids by occasionally lifting the upper and lower lids. Transport to hospital or doctor without delay. Removal of contact lenses after an eye injury should only be undertaken by skilled personnel.

Skin Contact – Flush skin and hair with running water (and soap if available). Remove any adhering solids with industrial skin cleansing cream. DO NOT use solvents. Seek medical attention in the event of irritation.

Inhalation – Remove to fresh air. Lay patient down. Keep warm and rested. Prosthesis such as false teeth, which may block airway, should be removed, where possible, prior to initiating first aid procedures. If breathing is shallow or has stopped, ensure clear airway and apply resuscitation, preferably with a demand valve resuscitator, bag-valve mask device, or pocket mask as trained. Perform CPR if necessary. Transport to hospital, or doctor.

Ingestion – Not considered a normal route of entry. Avoid giving milk or oils. Avoid giving alcohol. If spontaneous vomiting appears imminent or occurs, hold patient's head down, lower than their hips to help avoid possible aspiration of vomitus.

Refer to Material Safety Data Sheet for more details.
