Decorator style and screwless wall plate design for a modern appearance

Mounts in-wall or surface mount options

Intuitive & tactile button response for users

White indicator light for added visibility

Face Plates are available in blank, with light icons or can be custom printed

Multi-way operation (up to 4 switches)

Daintree® Wireless Controls are *Simple, Scalable* and *Flexible*

Easy-to-use user interface

Flexible wireless mounting options

Scalable commissioning in **Daintree EZ Connect** and **upgradable** to **Daintree Networked**

Smooth **dimming**

Multi-way operation

Ideal in **new** or **retrofit** projects

Daintree Wireless lighting controls provide a highly scalable solution to address evolving environmental regulations and transform spaces into intelligent environments for buildings of all sizes. The WWD2-2 lighting dimmer provides personal controls to any lighting space. Users can use the dimmer to adjust light levels to user preference.

The devices provide a clean and modern design that compliment any commercial application. The devices are available in two designs for surface mounting, or in-wall, which allows easy retrofit and ganging in junction box mounting. The multi-way functionality allows up to 4 dimmers to control the room or space for even greater flexibility and control. Buttons are available with standard lighting icons for easy user reference. Blank face plates or custom labeling is also an available option.

WWD2-2 are battery powered wireless devices that are easy to install and commission on either the **Daintree EZ Connect** app-based room control platform, or can be upgraded to the full-featured **Daintree Networked** for whole building or multi-site scheduling, reporting, monitoring and troubleshooting.
