

# EXL6

## Cast Aluminum Exit Sign

The EXL6 Series is a classic, robust design that offers self-diagnostic testing. This UL924 compliant sign is constructed of a cast aluminum for maximum durability. High output LEDs deliver an evenly illuminated exit sign and the maintenance-free, nickel-cadmium battery provides reliable performance and long life. The EXL6 Series offers flexible installation for surface ceiling, wall or end mount options along with field installed chevrons for universal configuration.

**Input Voltage (VAC)**  
120/277

**Power Draw (W)**  
5

**Emergency Operation**  
90 minutes
