

A photograph of an ASDA store at night. The large, illuminated 'ASDA' sign is mounted on the roof. The store's interior is visible through large glass windows, showing shelves stocked with various products. A person is sitting on a bench outside the entrance. To the right, a vertical sign lists services like 'Cafe', 'Pharmacy', 'Baby', 'Lottery', and 'Home', along with the 'George.' logo. Below that, a sign displays store hours and the slogan 'happy to help every day'.

LED signage lighting systems

Visibly better

Tetra[®] PowerMAX HO

GE current
a Daintree company

With powerful **OptiLens™ X** and groundbreaking energy efficiency

Tetra® PowerMAX HO—the remarkable 24V LED system designed for channel letters and single-sided cabinet signs delivers uniform light, installs easily and operates efficiently. **Tetra® PowerMAX HO** is IP66 and UL wet rated, which makes it more robust and reliable than ever, even under wet weather.

Powerful **OptiLens™ X**

Tetra® PowerMAX features **OptiLens™ X**, our patented technology that allows for an incredible 170° viewing angle. This exclusive technology redirects otherwise wasted light to the sign face, making sure your signs shine.

Power Supply Loading

The new 24V **Tetra® PowerMAX** loading improves 128% from the previous 12V generation. Now load up to 64 feet (19.5 m) or 96 modules of product per GEPS24-100U-GLX power supply.

Improved stroke spacing

The new 24V **Tetra® PowerMAX** stroke spacing has improved on average by 35%. **PowerMAX HO** comes out of the box with tied wire between modules, which can be stretched for greater flexibility.

Tetra® PowerMAX HO Features

- **Wide 170° beam angle**
- **Efficacy: 150 lm/W**
- **24 Volt DC, Class 2 (UL), Class III (IEC)**
- **UL Wet Rated & IP66**
- **5-year limited warranty**

Tetra® PowerMAX HO		
	Can Depth	Coverage
Medium	6-7" (152-178mm)	17" (432mm)
	7-8" (178-203mm)	19" (483mm)
Large	≥ 8" (203mm)	21" (533mm)

Total Reliability

To ensure every Tetra® PowerMAXHO installation will operate brilliantly for years, we perform the most extensive, stringent testing in the industry. We test the LED, water and dust ingress protection, sub-system and complete system at our in-house and independent laboratories around the world. Validation of our designs, components, products and processes include high temperature, high humidity and accelerated life testing.
