COMFORTABLE

Ergonomic design and molded comfort grip for extended use

Position 1:
CARPET
Flip over insert

Position 2:
LVT/LVP
Use rear notch

Position 3:
UTILITY
Use front notch

CONVENIENT
On-board storage

Patent Pending

The Capitol® 3-In-1 Carpet, LVT & Utility Knife is preferred for its versatility. With a quick blade change, it can be used to install carpet, LVT/LVP - or as a utility knife to cut twine and cardboard. It features a patented insert with 3 positioning options according to the blade type and cutting use. Position 1 sets the metal insert for use with a carpet blade. Flipping the metal insert allows it to be used with a utility blade. Position 2 is used for LVT/LVP applications and Position 3 is for use as a utility knife. The molded comfort grip and pinky hold increase leverage and pulling power. It includes in-handle blade storage for added convenience.
