

EXTRA - WIDE WOOD 1" TACK STRIP

120012

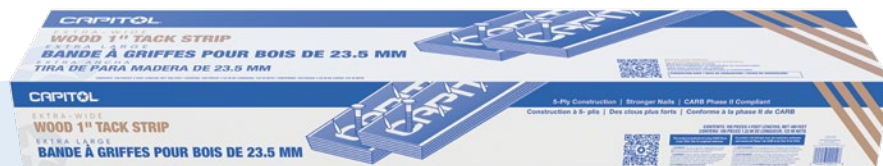

LOW-FORMALDEHYDE
Manufactured using Carb Phase II and TSCA title VI compliant materials

STRENGTH
Two rows of 7/32" pins for extra strength, and easier hooking on stiff carpets or thick cushion

DURABLE
High-carbon, regular duty, 14-gauge by 3/4" ring shank nails

VERSATILE
Suitable for commercial or residential applications

Capitol® 1" Tack Strip is made of 5-ply construction materials, and securely holds carpet in place with 2-rows of pins. Designed for wood subfloor installs, it is wider than the industry standard width of 7/8" and has ring shank nails to hold it in place. The beveled edge keeps the carpet tucked between the tack strip and the wall, and stays in place when stretching carpet with knee kickers or standard power stretchers. This 1" Tack Strip meets the standards prescribed by the Carpet and Rug Institute CRI-105.
