the relationship between phytosterols
and heart disease

Dietary Supplement

†These statements have not been evaluated by the Food and Drug Administration.
This product is not intended to diagnose, treat, cure, or prevent any disease.

*Products containing at least 400 mg per serving of phytosterols (plant sterols and stanols), eaten twice a day with meals for a daily intake of at least 800 mg as part of a diet low in saturated fat and cholesterol, may reduce the risk of heart disease. One Nature Made® CholestOff Complete® serving supplies 900 mg of phytosterols for a daily intake of 1800 mg. (See nutrition information for total fat content).
