Negative Pressure Seal Checks Made Easy.

3M™ Bayonet Seal Check Device 505

Easy Seal Check

- Helps the user easily conduct a negative pressure seal check by pressing the buttons.
- Most field trial participants* reported that using the seal check device made it easier to conduct user seal checks compared to the traditional method.
- Most field trial participants* said that they would choose to use the seal check device on their respirator.

Helps Enable Easy Breathing

- Creates a space in between filter layers while being left on the facepiece during workplace use.
- Reduces initial breathing resistance by at least 10% compared to the same configuration without the use of a seal check device.

Wide Compatibility

- Designed for use with 3M™ Half and Full Facepiece Reusable Respirators 6000; 6500; 6500QL; 7500; 7800S; FF-400; AV-3000SS or AV-3000 HT with AV-632; and C5 with C5-632 when used with 3M™ Particulate Filters 2000 and 2200 Series.

* Workers from Australia, Brazil, Canada, Korea, Mexico, New Zealand, Thailand, and the USA agreed or strongly agreed that the seal check device made it easier to conduct user seal checks compared to the traditional method during a field trial that was completed in November 2025.
