3M Science. Applied to Life.™

Introducing the

3M™ Hookit™ Flexible Foam Abrasives

Take it to the edge. Versatility at its finest.

Highly flexible, foam-backed abrasive which conforms to irregular surfaces

Reduce the risk of burn through when sanding near edges, bodylines, or thinly coated surfaces. Available in discs and sheets.

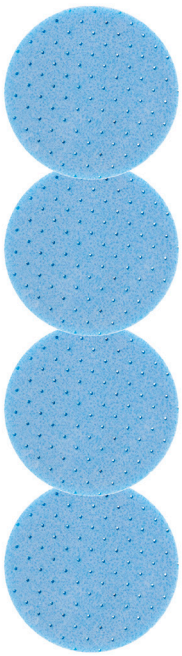

3M™ Hookit™ Flexible Foam Abrasives are ideal for:

- Primer finishing: P400, P600
- Blend preparation: P800, P1000
- Clearcoat: P1200, P1500, P2000

3M™ Hookit™ Flexible Foam Abrasive Discs

Achieve a more quickly matte finish faster while feeling comfortable working closer to edges and bodylines with random orbital sanders.

3M™ Hookit™ Flexible Foam Abrasive Discs combine flexible aluminium oxide abrasives with a soft foam backing to create a high-performing, versatile blending abrasive for dry or wet sanding, whether by machine or by hand.

3M™ Hookit™ Flexible Foam Abrasive Sheets

The soft foam construction conforms to irregular surfaces, ensuring a uniform and consistent finish, especially around panel edges and corners.

The perforated double sheet can be folded in half to enhance grip and control of the abrasive.

These innovative sanding sheets are designed for use by hand or with a sheet sander, offering versatility for blending, primer finishing, and scuffing applications.

Confidently sand body lines while evenly applying pressure across the pad, helping ensure fewer chances of scratch uneveness from finger pressure.

Reasons to Choose 3M™ Hookit™ Flexible Foam Abrasives

Reduce the risk of burn through on edges, bodylines and thinly coated surfaces to help minimize rework.

Flexible and long lasting, delivering an excellent finish.

Product has a great initial and sustained cut for use on clearcoats, paint, primer and plastics.

Recommended Grades for Use

Grade	Applications
P400	Final DA primer refinement before paint application, plastic bumper cover sanding, prep for basecoat and clear coat application
P600	Final primer sanding for critical colours and refining previous sanding scratches
P800	Blend sanding and final primer sanding for critical colours
P1000	Blend sanding while retaining clear coat texture (uniform matte finish)
P1200	Preparation for clear coat
P1500	Defect removal - clear coat rectification
P2000	Minor defect removal - clear coat rectification
