

PersonalFit™ PLUS Breast Shields - Bulk

PersonalFit PLUS breast shields optimize human milk expression by offering more comfortable,^{1 2} efficient¹ milk removal, improving the chances of infants receiving an exclusive human milk diet. When used with the Symphony® PLUS™ it enhances clinical and financial outcomes by effectively stimulating and programming the breast for establishing a long-term breast milk supply.

Benefits

More milk

After 15 minutes, 11% more milk and 4% more PAMR was obtained, when double pumping with an electric breast pump.¹

(PAMR) - Percentage of Available Milk Removed

More comfort

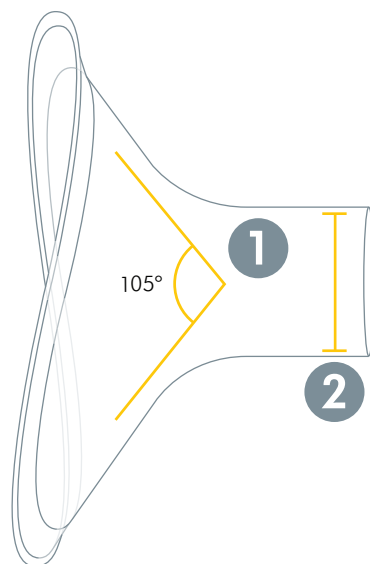

Mothers described pumping as more gentle and natural^{1,2}

Flexible

Oval breast shield can be rotated, making it easier to fit to different breast shapes.

1. 105° flange angle allows optimal nipple placement, while minimizing breast tissue compression.³

2. Critical for effective milk removal, a wide range of tunnel sizes are offered for optimal fit.

Product Specifications:

Item #	Description	Qty Per Case	Case Dimensions (HxWxD) Inches	Case Weight lbs
