3M Science. Applied to Life.™

New 3M™ Air and Vapor Barrier 3015NP

A smarter approach to air and vapor control.

Extreme temps? Tight deadline? See how new 3M™ Air and Vapor Barrier 3015NP helps solve your toughest construction challenges.

Built for speed

Primer-free application allows for up to

40% faster install*

*As compared to traditional primer applied air barriers.

Weather tough conditions

0° to 150°F

Apply in temps from 0°F to 150°F and count on 12-month UV resistance.

No primer

3M acrylic adhesive technology eliminates the need for primers.

No problem

See just what you need

Increased opacity creates a clean look while keeping screwheads visible.

Highly compatible with other materials

Better not heavier

Lightweight roll weighs 21 pounds, yet outperforms competitive membranes weighing up to 2x more.

Only **21 lbs**
