3M Science. Applied to Life.™

Spray smart.

3M™ Fastbond™ Water-Based Aerosol Spray Adhesives

Sustainability doesn't have to come with performance sacrifices. With emissions regulations around the world becoming increasingly stringent, you need industrial-strength spray adhesives that work — without harsh solvents. You need water-based aerosol adhesives from 3M.

A sustainable option.

The powerful bonding power you depend on is available in a water-based aerosol version. So you get the performance and productivity to meet your most demanding applications without solvents and with lower volatile organic compounds (VOCs).

- With VOCs of 6% or lower, these adhesives can help support your regulatory compliance efforts and your company's environmental health and safety (EHS) goals.
- These are the first aerosol spray adhesives made without flammable propellants and do not require specialized storage for flammables.
- Smaller cans still contain more adhesive product — so you waste less
- The result is more product per unit, up to two times the coverage per can, and lower cost of coverage per square foot.
- Your workers may be safer and more comfortable working with easy-to-use products that are also low-odor.

3M™ Fastbond™ Water-Based Foam and Fabric Adhesive 1074
3M™ Fastbond™ Water-Based Multipurpose Adhesive 1077
3M™ Fastbond™ Water-Based Contact Spray Adhesive 1090

The performance you trust.

3M™ Fastbond™ Water-Based Aerosol Spray Adhesives are low-odor, easy to use, and easy to clean up. They can meet your bonding needs for a wide range of applications.

1/2 Half the weight, same great coverage*

**Compared to traditional 3M™ Solvent-Based Aerosol Adhesives*
