

A technical line drawing of a rectangular box with a lid. The drawing shows the front, top, and side panels. Red dashed lines indicate fold lines. A horizontal handle is shown on the front panel. The lid is at the top, and the box has a slightly tapered bottom.

0.3mm PET

The diagram shows a cross-section of a PET bottle. A central circle represents the bottle's body. Two vertical dashed red lines extend from the top to the bottom of the bottle, indicating the thickness of the PET layer. The text "0.3mm PET" is written in blue above the central circle. The bottle's neck is shown as a narrow vertical line on the right side, and the base is a small circle at the bottom.

There are two color bars on this proof and in the art file. One to be used with X-rite I1 Pro Spectrophotometer. The other can be used with most other spectrophotometers. Printers must repeat one of the two color bars all the way across the width (gripper edge) of the press sheets on sample runs and production runs. Failure to comply will result in the remaking of film and/or plates at your cost.

数码稿以及设计文件包含了两种色带。一种适用于X-rite (爱色丽) I1 Pro 分光光度计，另一种适用于其它大部分的分光光度计。在打样或者批量生产时，印刷厂必须选择其中一种色带并重复添加直到覆盖整张纸的宽度（叼口边）。没有按照上述要求而导致重新出菲林、出版的费用将由印刷厂承担。
