3M Science. Applied to Life.™

Don't guess.

Locate precisely.

Locate Your Underground Assets with the 3M™ Dynatel™ Locator XT Series

Enhance your standard operations for locating underground networks with the 3M™ Dynatel™ Locator XT Series!

The 3M™ Dynatel™ Locator XT Series helps to detect the precise location of your underground network with tools to minimize bleed over. Use the features of the 3M™ Dynatel™ Locator XT Series transmitter to select and output multiple frequencies, including two simultaneous frequencies.

The Bluetooth remote communication between the transmitter and receiver enables greater speed in the field while maintaining accuracy and helping you save time and costs.

The 3M™ Dynatel™ Locator XT Series' simplified and intuitive design helps with minimizing onboarding time and shortening training durations. This combined with 3M's comprehensive support helps you locate quicker, before and during operations.

Product Features

Remote communication
Remote Bluetooth control between the receiver* and transmitter to set or add frequency and set output power.

Choose your frequency
Offers more frequency choices and the option to output dual frequencies.

Intuitive user interface
Simplifies use to start locating faster.

Smart accessories
Automatic recognition and detection of the accessory.

Rechargeable lithium-ion battery
Lighter and easier to carry.

IP rating
The receiver is designed to IP54 and the transmitter to IP55 to help handle various environments.

USB-C port
Easy charging and PC communication.

Enhanced compatibility
Software updates for improved communications between the transmitter and receiver.

*2273XT(E) kits and 2273X(E) receivers do not have Bluetooth enabled.

With 3M, you receive trusted accuracy, speed in the field and ease of use when locating underground networks.
