

3M™ Envision™ Print Film Series

Stunning print films that can help you reach your sustainability goals.

From interior, to exterior, to on the road, 3M™ Envision™ Print Films help brands stand out. Conformable, durable, and highly versatile, these non-PVC films are designed to deliver outstanding performance while helping brands achieve their sustainability goals.

3M™ Envision™ Print Film PL50mC takes it one step further. This next-generation film is designed for short-term applications and made with 47% bio-based materials.[1,2] Plus, it features Comply™ and Controltac™ for fast, easy and bubble free installations. Pair it with recommended 3M overlaminates to create a beautiful matte or gloss finish.

1. Product made in part from non-food source corn
2. Percentage based on film, adhesive, and liner according to ASTM D6866

Find the right 3M™ Envision™ Print Film for you
