APPROVED:

SGS_STL 7845560-1

Date Code Note:

Any print color inside code date void area must be maximum 50% grayscale. No text, graphic images, or photos. Any printed patterns or textures inside the code date area must have a maximum contrast of 30% between all colors/values. Consult project lead with any questions to ensure visibility based on production facility.

H2R Note:

H2R holdout area shall be registered left of Date Code Area. H2R sizing must follow the most current H2R guidelines. Project leader to provide correct label based on region and packaging substrate. H2R label to be Classic or Classic on Dark style based on ink color in H2R holdout area to ensure visibility.

UPC Note:

Refer to print direction and barcode scaling notes for UPC facing and size requirements. UPCs may be placed in another appropriate area within the same panel and/or a reduced quantity of UPCs may be used if dictated by distribution needs and approved by project team.
