

 **Little Giant**  **GLOBAL**  
INDUSTRIAL

# THE VAN LOADOUT SERIES.

Three trades. Three ladders each. Every height you'll hit today and enough van space left to actually do the job that pays.

**ELECTRICIAN**

**PLUMBER**

**HVAC**

# THE ELECTRICIAN'S VAN

Panel access · Between-stud lean · Stairwells · Quick device work  
· High-ceiling installs

## 01 - DAILY DRIVER

### KING KOMBO™ INDUSTRIAL | 6' MODEL

#### 3-IN-1 COMBINATION LADDER TYPE IAA · NON-CONDUCTIVE

Stepladder, leaning, and extension reach in one. Back legs fit between 16" studs. Rotating wall pad grips inside corners, outside corners, walls, and studs. 7" deep on the rack or ceiling-mounted in the van.

**TYPE IAA**

375 lbs. weight capacity.

**MATERIAL**

Non-Conductive Fiberglass.

## 02 - FAST-MOVE DRIVER

### MIGHTYLITE™ 6' MODEL

#### FIBERGLASS STEPLADDER TYPE IA / IAA · NON-CONDUCTIVE

10.5 lbs. 3" folded depth. One-hand carry. Ceiling-mounts inside the van. Stops you from unfolding the 8-footer for a 4-minute task.

**TYPE IA**

300 lbs. weight capacity.

**TYPE IAA**

375 lbs. weight capacity.

**MATERIAL**

Non-Conductive Fiberglass.

## 03 - CLOSE-ACCESS STEP

### SURE STEP™ 3 STEP

#### STEP STOOL TYPE IAA · NON-CONDUCTIVE

When the work is sub-panel connections, low-mounted disconnects or device boxes the Sure Step gets you there without unfolding a full ladder. Non-marring rubber feet. Compact footprint for tight utility rooms and mechanical closets.

**TYPE IAA**

375 lbs. weight capacity.

**MATERIAL**

Non-Conductive Fiberglass.

**WHERE THEY STORE:** ROOF RACK + 2 INTERIOR MOUNTS

# THE PLUMBER'S VAN

Uneven slabs · Tight mechanical rooms · Long pipe runs · Quick under-fixture access

## 01 - DAILY DRIVER

### KING KOMBO™ INDUSTRIAL | 6' MODEL

#### 3-IN-1 COMBINATION LADDER TYPE IAA · NON-CONDUCTIVE

Stepladder, leaning, and extension reach in one. Back legs fit between 16" studs. Rotating wall pad grips inside corners, outside corners, walls, and studs. 7" deep on the rack or ceiling-mounted in the van.

**TYPE IAA**

375 lbs. weight capacity.

**MATERIAL**

Non-Conductive Fiberglass.

## 02 - MULTI-POSITION WORKHORSE

### VELOCITY™ W/LEVELERS | M22

#### MULTI-POSITION LADDER TYPE IA · ALUMINUM

Ratchet levelers dial in on sloped and stepped floors without shimming. Five configurations in one unit. The step, the extension, and the stairwell mode.

**TYPE IA**

300 lbs. weight capacity.

**MATERIAL**

Lightweight Aluminum.

## 03 - QUICK-ACCESS STEP

### JUMBO STEP™ 3 STEP

#### STEP STOOL TYPE IAA · NON-CONDUCTIVE

One-hand fold and carry. Integrated tool tray at top cap keeps fittings, flux, and solder at working height. Water heater, and low fixture access, without unfolding the 6-footer for a 3-minute task. Clips to van shelving.

**TYPE IAA**

375 lbs. weight capacity.

**MATERIAL**

Non-Conductive Fiberglass.

**WHERE THEY STORE:** ALL 3 INSIDE: NO ROOF RACK REQUIRED

# THE HVAC TECH'S VAN

Condenser pad · Mini-split · Ceiling AHU · Commercial rooftop RTU · High-bay

## 01 - PAD-SIDE & CLOSE-ACCESS

### A-FORCE 300XP™ 6' MODEL

FIBERGLASS STEPLADDER  
TYPE IA · NON-CONDUCTIVE

Built for the work that makes up the majority of residential HVAC calls. Lightweight fiberglass. The ladder you grab 15 times a day without thinking about it.

## 02 - INDOOR INSTALLS & AHU ACCESS

### KING KOMBO™ INDUSTRIAL | 6' MODEL

3-IN-1 COMBINATION LADDER  
TYPE IAA · NON-CONDUCTIVE

Stepladder, leaning, and extension reach in one. Back legs fit between 16" studs. Rotating wall pad grips inside corners, outside corners, walls, and studs. 7" deep on the rack or ceiling-mounted in the van.

## 03 - COMMERCIAL RTU & ROOFTOP

### EPIC™ M22

MULTI-POSITION LADDER  
TYPE IAA · ALUMINUM

Reaches the one-story commercial flat roof without hauling an oversized extension ladder all day. Multi-position capability, use it as an extension, then A-frame. The rooftop call that used to need two ladders now needs one.

**TYPE IA**  
300 lbs. weight capacity.

**MATERIAL**  
Non-Conductive Fiberglass.

**TYPE IAA**  
375 lbs. weight capacity.

**MATERIAL**  
Non-Conductive Fiberglass.

**TYPE IA**  
300 lbs. weight capacity.

**MATERIAL**  
Lightweight Aluminum.

WHERE THEY STORE: ALL 3 INSIDE

## THE VAN SPACE MATH

Van space is revenue. Every cubic foot a ladder stack takes up is a cubic foot that can't hold wire, pipe, refrigerant, cable, or the tools that actually close the job. Most vans carry more ladders than they need, and every one of them is dead weight when the right ladder would have covered the utility of the others. The loadouts here are built to eliminate that bloat. Three ladders, chosen specifically for what each trade actually encounters in a day, stored in the smallest footprint possible. The van space you recover goes back to inventory and equipment, all while reducing the number of ladders you need to purchase.

## BUILD OUT YOUR LOADOUT — ACCESSORIES

### STRAP HOLDER™

Clips to the top cap. Dispenses pipe strapping without tangles so you hang the hanger, not fight the roll.

PLUMBER

### LOOT BOX™

Tool bucket mounts to the top cap. Wire nuts, tape, fittings. All at working height, not on the floor.

ELECTRICIAN

PLUMBER

### HOVERGLIDE™ FEET

Wheels engage when you move the ladder, lock down when you climb. Reposition without lifting. Built into A-Force 300XP.

HVAC

### CARGO HOLD™

Ballistic nylon tool pouch attaches to the ladder rail. Keeps your most-reached-for tools at the step you're standing on.
