CARE AND MAINTENANCE

You have purchased a quality product that will give you years of enjoyment. By following these simple maintenance steps, you will add to the life of your new table.

THE TABLE TOP

The top (playing surface) of your table is made of Mid-Density Board. Like all products made of wood, it can be affected by atmospheric changes in both temperature and humidity. This may cause a slight sag or distortion as the top expands or contracts. This is normal and should not cause concern as it does not detract from the play or utility value of the table. After assembly of the table, you can minimize the effects of temperature and humidity changes by storing the table in a dry area when table is not in use.

STORAGE OF YOUR TABLE *(You may consider keeping the outer carton for table storage)*

This table must be stored indoors to prevent damage to the playing surface. Dampness and extreme temperature changes can cause the wood to warp, swell, crack or blister. When your table is not in use, it should be stored in a dry area. Due to the nature of particle board, table top may bow. Damp and humid conditions will amplify this. This is normal and will not affect playability of table. One may want to consider keeping the shipping carton for storage for this product.

CLEANING YOUR TABLE

To clean your table use a soft cloth and furniture polish for the exterior surfaces of the table. Use the enclosed billiards brush only, to clean the clothed playfield. To prevent damage to your table's playing surface DO NOT USE ANY CHEMICALS, ABRASIVE OR CLEANING PRODUCTS on your table's playing surface.

MAINTENANCE OF YOUR TABLE

Be sure to oil all moving parts of your table including the pivot points. This will insure the safety and ease of use of your table.

This table must be kept indoors to prevent damage to the playing surface. Dampness and extreme temperature changes which occur on patios or similar areas can cause wood to warp, swell, crack or blister.

UNEVEL FLOORS

If table does not seem level, it is probably due to uneven or unlevel floors. Set the table in its PLAYING POSITION and move table several inches in different directions to find the best location for the table. If the floor is extremely unlevel, table may not play or operate properly. If table is high in the center, shim up under the outer legs.

CAUTION:

Do not sit on Billiards Main Frame.
Do not lean against Billiards Main Frame.
Do not stand on Billiards Main Frame.
Do not allow children or pets under Billiards Main Frame.
Do not set drinks on the Billiards Main Frame.
