

/// NEW FOR 2018

SOLE INTENT

ONE COMPACT PUNCH

Forged for strength, machined for the accuracy, the Sole Intent features a single-cam system that requires less maintenance and is easier to set up and tune. With a smoother draw cycle and firing at 295 feet per second, the Sole Intent packs one compact punch at 29" axle-to-axle and a 45 to 60 lb. peak draw weight. Utilizing the BearCage Technology, the Sole Intent eliminates riser flex and reduces weight while maintaining its strength.
