

MSA+ WinGrip® Vacuum Anchor Subscription

Take the safety and productivity of your program to new heights.

About the MSA WinGrip Vacuum Anchor

The WinGrip Vacuum Anchor is a portable, lightweight vacuum anchor fall protection system used for industrial workers, primarily in aircraft manufacturing and maintenance, specifically on the fuselage, stabilizers or wings. Workers wearing full-body harnesses attach to the system via positioning ropes allowing them to safely perform their job hands-free.

WinGrip Subscription Highlights

Portable anchors that weigh less than 13.5 lbs (6.1 kg).

Can be used on wet or dry surfaces, both indoor and outdoor.

Allows hands-free operation.

Easily installed and ready to use within minutes.

Uses compressed air or nitrogen meaning no electrical equipment.

Safe to use around open fuel tanks.

No metal on metal contact—keeping surface coatings protected.

Engineered to sound an alarm in the event of a loss in supply pressure or sufficient vacuum level.

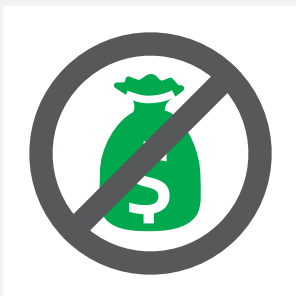

Guaranteed safety period with all systems.

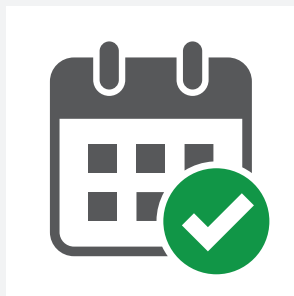

System-tested and rated for fall arrest.

Outfit your program with the simplicity of an MSA+ subscription.

Zero Up-Front Capex Expense

No up-front purchase of devices or hardware. Get your program approved and running for a low, predictable, recurring expenditure.

Always Under Warranty

When you're a subscriber, you're covered under warranty regardless of the age of the device.

Proactive Service

Keep your equipment in tip-top condition through inspection, repair, and initial or refresher training for your employees. Easily track your assets and inspection reports in real time by utilizing MSA's digital suite of services.

WE KNOW WHAT'S AT STAKE.

MSA—The Safety Company

Established in 1914, MSA Safety Incorporated is the global leader in the development, manufacture, and supply of safety products that protect people and facility infrastructures. Many MSA products integrate a combination of electronics, mechanical systems, and advanced materials to protect users against hazardous or life-threatening situations. The company's comprehensive product line is used by workers around the world in a broad range of markets, including the oil, gas, and petrochemical industry, the fire service, the construction industry, mining, and the military. MSA's core products include self-contained breathing apparatus, fixed gas and flame detection systems, portable gas detection instruments, industrial head protection products, firefighter helmets and protective apparel, and fall protection devices. With 2021 revenues of \$1.4 billion, MSA employs approximately 4,800 people worldwide. The company is headquartered north of Pittsburgh in Cranberry Township, PA, and has manufacturing operations in the United States, Europe, Asia, and Latin America. With more than 40 international locations, MSA realizes approximately half of its revenue from outside North America. For more information visit MSA's web site at www.MSAsafety.com.

Our Mission

MSA's mission is to see to it that men and women may work in safety and that they, their families, and their communities may live in health throughout the world.
