Care and use

To ensure the longevity and optimal performance of your ironing board cover, please adhere to the following care instructions: wash at a maximum temperature of 30 °C and avoid tumble-drying. When ironing, do not exceed a temperature of 200 °C, and refrain from using bleach or dry-cleaning methods. For light soiling, simply wipe the cover with a soft, damp cloth. Additionally, we advise caution; never leave a hot iron unattended and avoid placing a hot iron face down on the cover to prevent damage.
