

# Trough Screen

The same effective Wave 3D design for trough-style urinals

**Trough-style urinals get a lot of users and can be tricky to maintain due to their long design. Luckily the Trough urinal screen was made specifically to handle the splash and odor of high traffic trough urinals.**

## Designed for trough urinals

Long and wide, this screen has a locking tab system that connects multiple screens to cover any length trough.

## Great for high-traffic venues

The patented double-sided design reduces urine splash so floors are cleaner and stops the tracking of urine outside the restrooms.

## Freshens for 30 days

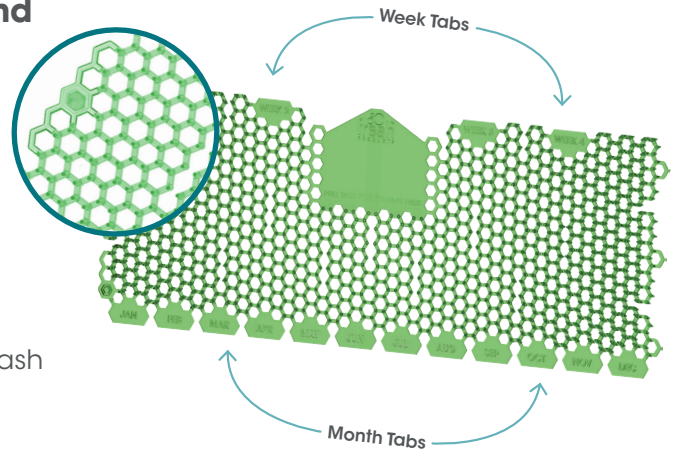

Each screen contains 2x more fragrance than competing urinal screens so restrooms smell fresher longer.

## Date tab reminder system

Pull the week tab and month tab to show when to replace the screen.

## Eco-friendly

Contains 5%-10% recycled material and comes in a two-pack for less packaging.

| Intensity ↑ | Item Code         | Description    |
|-------------|-------------------|----------------|
|             | TUS-F-006I036M-01 | Spiced Apple   |
|             | TUS-F-006I036M-04 | Mango          |
|             | TUS-F-006I036M-02 | Cucumber Melon |

### Packaging

6 screens/inner box  
36 screens/master case

Meets the "Purchase of Sustainable Cleaning Products and Materials" criteria under the LEED point management system.
