Models available:

Hockey only tarp (Item 02565)

Lacrosse only tarp (Item 02576)

Hockey/Lacrosse tarp (Item 02564)

Items needed for set-up

Items/Tools List: (not included, but easily found at your local hardware store)

- Qty 5- Ball Bungees 9" long (if you want to leave your tarp permanently installed and rolled up when not in use)
- Qty 11- #8 or #10 x 1" long (min) Kreg-type screws (or similar)
- Qty 11- #8 or #10 Fender washers
- Total 16ft of wooden dowel 1 1/4"- 2" diameter (NOTE: 2pcs of 8ft long 1 5/8" wooden clothes rod works very well)
- Power Drill and pilot drill bit (sized according to screw size)
- Ladder

Places the tarp can be installed:

1. On a standard 7' ft. or 8' ft. high Garage frame
2. Against the back wall inside a garage

3. Against a Tennis court fence
4. On a soccer goal post
5. In an unfinished basement

How to install the Attack Zone shooting tarp

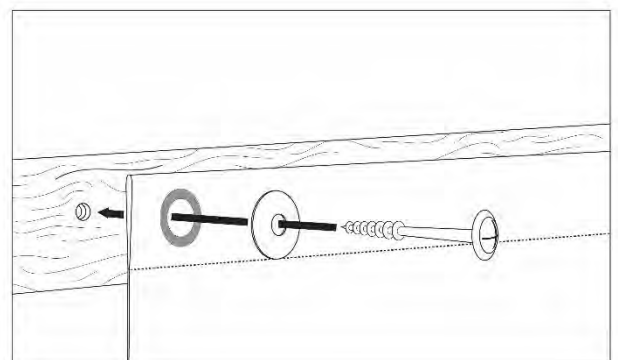

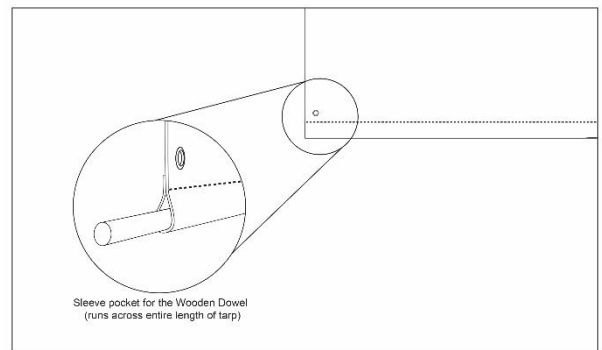

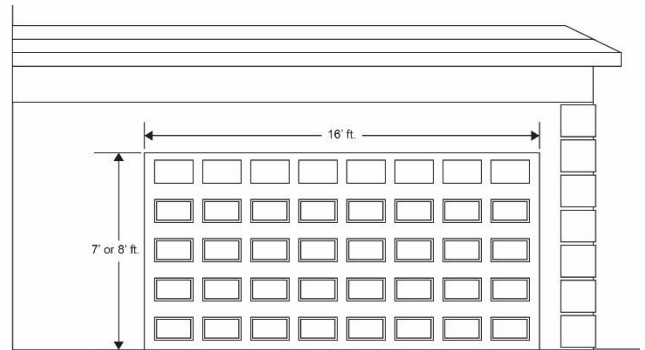

1. Make sure the place of installment has enough space for a 7' or 8' height and 16' width.

NOTE: If necessary, the sides of the tarp can be rolled or folded inward to reduce the width required.

2. Measure the door frame to determine if you have a 7' or 8' opening. The top grommets of the tarp are for use on 8' openings. The lower set of grommets are for garages with 7' openings.

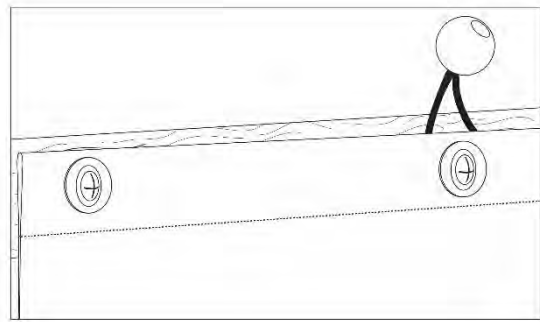

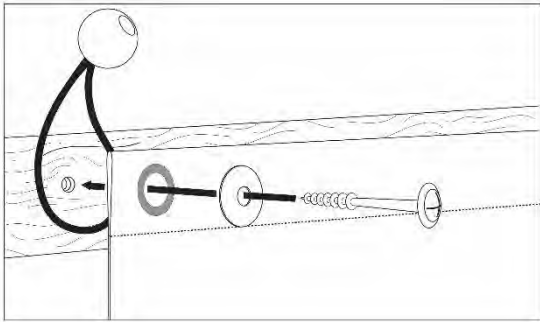

3. Mark the center point of the top door frame and drill a pilot hole in this location.
4. Install the wooden dowel(s) into the sleeve pocket along the bottom edge of the tarp.
5. Starting at the center and working across to both corners of the tarp, insert the screw into the washer and then screw in place.

6. Your tarp may be left permanently installed and rolled up when not in use. To do this, place ball bungees between the tarp and wall at

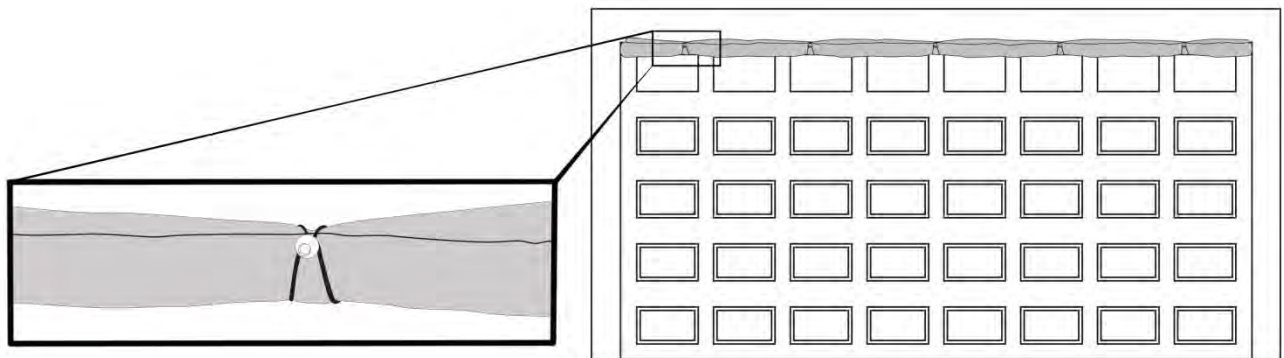

every other screw location.

NOTE: These screws should not be tightened fully as the ball bungee will need to be free to slide up/down behind the tarp.

7. After use, roll it up and bungee cord it for fast and convenient storage.

Safety Rules and Information

- Wear proper protective gear when using this product.
- Always ensure the area in front of and behind the shooting tarp is clear of other people before shooting at the tarp.
- DO NOT ALLOW ANYONE TO STAND BEHIND THE TARP WHILE IN USE.

- Other participants that are standing in front of the tarp should be well off to the side of the shooter.
- Be aware that shots may rebound off the surface of the tarp. Do not stand too close to avoid being hit.
- Be aware of your surroundings and watch out for others who may get too close when taking your shots.
- Use helpers and use caution when raising/lowering the tarp. Bungees can snap back causing possible damage to eyes/fingers. Use caution.
- Do not attach tarp near windows or other objects which could easily be damaged by errant shots.

Storage

When the product is not being used, roll up and bungee the product for future use. This will help protect it against ultraviolet (UV) rays and extend the life of the product.

Cleaning

Use a mild dish soap or citrus-based cleaner to clean the surface of the tarp. Do NOT use petroleum-based solvents or cleaners to clean the tarp!
