

**PURINA®**  
**PRO PLAN®**  
**VETERINARY DIETS**

**Transforming Allergy  
 Diagnosis with  
 Nutritional Expertise**

**PURINA® PRO PLAN® VETERINARY DIETS**  
**HA Hydrolyzed™** formulas are designed to make diet trials more straightforward – for you, your patients and your clients. Each formula contains hydrolysed protein sources, meaning clearer and more reliable results. And because compliance is critical, every diet in the range has high palatability results.

**Vegetarian  
 Dry Canine  
 Formula**

Single low-allergen carbohydrate source helps minimise the risk of an allergic reaction

Highly digestible for optimal nutrient absorption

Contains coconut oil, a source of medium-chain triglycerides

Contains single hydrolysed protein source to help reduce the risk of an allergic reaction
