# Make a Sustainable Splash!

The Wave™ Series containers are optimally suited for both indoor and outdoor areas where recycling and waste is collected in high volumes. Available in solo or duo models, these rotationally moulded bins are durable and come with a secure lid space for food trays.

Liners are made from 100% post-consumer recycled content

## BODY SPECIFICATIONS

Below are the available Body Options for the Wave™ Series. With this measurement guide you will find the right size Wave™ Series container to fit your space. The measurement guide is the essence of various standard measuring methods. All measurements are in inches. Talk to your dedicated Busch Systems® sales representative for more information on how to choose the right size container for your space.

Body	Height	Width	Depth	Weight	Capacity
Single Indoor	42"H (1066.8 mm)	21.5"W (546.1 mm)	23.75"D (603.25mm)	42lbs (19.05kg)	45 gal
Single Outdoor	42"H (1066.8 mm)	21.5"W (546.1 mm)	23.75"D (603.25mm)	53.5lbs (24.26kg)	40 gal
Double Indoor	42"H (1066.8 mm)	21.5"W (546.1 mm)	23.75"D (603.25mm)	38.6lbs (17.50kg)	46 gal
Double Outdoor	42"H (1066.8 mm)	21.5"W (546.1 mm)	23.75"D (603.25mm)	50.1lbs (22.72kg)	40 gal

## OPENING SPECIFICATIONS

The chart below outlines the available Opening Options for each Wave™ Series model as well as the associated opening dimensions. Be sure to run a preliminary audit of the popular materials that are discarded where your Wave™ Series containers will be placed. For example, if you're collecting large quantities of standard-sized Cans & Bottles, the Circle Opening is the ideal choice, as it will reduce contamination of materials that are larger than the dimensions of the opening. If there is a blank cell on the body or lid style of your choice, this means there is currently no stock option available. Talk to your dedicated Busch Systems® sales representative for more information.

	Full	Circle	Mixed	Slot
All Configurations				
Opening Dimensions	10"W x 6"H 8"W x 6"H (Double)	5.75" Diameter	10.5"W x 2.5"H x 5"D (circle)	13"W x 3"H *Available in Single Only

Ideal Bag Size (inches)	45.25 x 51	31 x 39

## MATERIAL & CONSTRUCTION DETAILS

Not all recycling & waste receptacles are created equal. Our company policy is never to compromise on our workmanship or the quality material standards we've set. We only recommend and use quality first-grade materials on our recycling & waste containers, and source these from OEM's at highly competitive prices. Being a manufacturer that buys at high-quantities gives significant buying power with companies which in turn saves you money.

The design process, materials used, finishes, and manufacturing standards all affect the final product. Every decision is vital to getting the most value for your investment. You deserve recycling & waste containers that meet your demands for quality and durability and will enhance your working environment for years to come.

Component	Material(s)	Construction
Bodies	LDPE	<ul style="list-style-type: none"> <li>Bodies are molded from durable LDPE. Stone finish hides dirt and scratches over time.</li> </ul>
Openings	HDPE	<ul style="list-style-type: none"> <li>Openings are molded from durable HDPE and may contain up to 35% recycled content.*</li> <li>*Recycled content may vary by production run</li> </ul>

Busch Systems® is dedicated to environmental responsibility. We maintain an Environmental Management System and are continually working to improve our impact through efficiency, material selection, vendor education, employee involvement, and an unwavering commitment to being a Certified B Corporation™. If you would like additional information on our product development process or if you don't see the information you need for your project on this page, please contact our Sustainability Team at [sustainability@buschsystems.com](mailto:sustainability@buschsystems.com).

## LEAD TIME

Our standard lead times on the Wave™ Series are 1-2 weeks. Please contact us to discuss your specific timing requirements.

## PRICING

Please contact us at **800.565.9931** or **sales@buschsystems.com**. At Busch Systems®, we design, manufacture and sell our products directly to you. Our sales team is available to assist you with questions about our products, requests for quotes, and orders. Vertical Managers are located across North America to assist with the front-end specification and quoting process, and our in-house Project Sales Coordinators follow your project through from the time you place an order to shipment.

## TO ORDER PLEASE SPECIFY

Quantity, body model, openings, and any optional product accessories. Talk to your dedicated Busch Systems® sales representative for more information. If you do not have a dedicated Sales Representative please contact us via our website at **buschsystems.com/contact-us/**

## INSTALLATION

Busch Systems® Wave™ Series containers are hassle-free when it comes to installation. Each container comes fully-assembled.

## CARE & MAINTENANCE

Advantages of Busch Systems® HDPE & LDPE receptacles include:

- Great low temperature impact resistance and excellent chemical resistance
- Great high temperature impact resistance
- Lower stiffness rating which reduces potential for stress cracking
- High strength-to-density ratio

Their appearance and lifespan will be greatly affected by their care. The frequency of cleaning required depends on the environment in which the containers are used. Outdoor containers will be subject to different environmental conditions than indoor units, i.e. sun, rain, wind, pollution, winter temperatures, and salt/sea air.

To avoid the accumulation of dirt and grime on your Busch Systems® products, and help prevent corrosion, we recommend that a mild detergent be used (not an abrasive), such as a pH-neutral liquid (hand dishwashing or hand car washing soaps, for example) diluted in warm water. Wipe with a clean wet cloth and towel dry. Any dirt adhering to the powder coating should be removed. In order to remove deposits such as salt or dust, use a soft brush (non-abrasive). If this is not sufficient to remove stubborn soiling, the following products have been tested for use:

*Note: Always test soaps/cleaners on a hidden and/or small area beforehand*

- Ajax Cream
- Liquid Gumption
- Cutting compound ('T. Cut')
- Flash (in water)
- Ajax Liquid (in water)

## GENERAL CARE

- Clean with a power washer or light scrub brush (outdoor/municipal bins)
- Clean with a mild detergent with damp sponge or cloth (indoor/office bins)
- For soil and stain remover, cleaners like Fantastik, Armor All or Acetone may be tried
- UV safe cleaners MUST be used on all outdoor bins

## THINGS TO AVOID

- Cleaners with chloride or bleach
- Solvents
- Abrasive detergents
- Steel wool or Scouring pads
