PRODUCT INSTRUCTIONS AND WARNINGS

Water sports can be safe and fun for all levels of enthusiasts. The Operator's Manual is presented to enhance your enjoyment of the sport. It is intended to alert you to some of the potentially dangerous conditions that can arise in all watersports.

The binding, even if properly adjusted, may or may not release in a fall which could result in injury to the ankle, knee, leg or other parts of the body.

To reduce your risk of injury or death, follow these guidelines:

- Use correct size wakeboard and binding. Binding should be adjusted for a snug, not tight, fit.
- Wet binding and feet with water before use.
- Inspect wakeboard, fins and bindings for loose screws, wear, cracks, delamination or tearing.
- Check foot straps (bindings) and fins prior to each use to insure they are fastened securely to the wakeboard.
- The faster you wakeboard, the greater your risk of injury. Exercise additional caution when riding at competitive speeds. Beginners should be towed at slower speeds that allow for reasonable control and stability.
- Wakeboarding instruction is recommended before use. Instruction will teach general safety guidelines and proper wakeboarding techniques, which may reduce your risk of injury.
