

HOT HEADS 3 INSTALLATION INSTRUCTIONS

! WARNING

- Turn off gas and electrical supply before proceeding with installation.
- Appliance may be hot, do not proceed until appliance is cool.
- To avoid danger of suffocation keep the packaging bag away from babies and children. Do not use in cribs, bed, carriages, or play pens. This bag is not a toy. Knot before throwing away.

This kit includes:

1 x white

1 x taupe

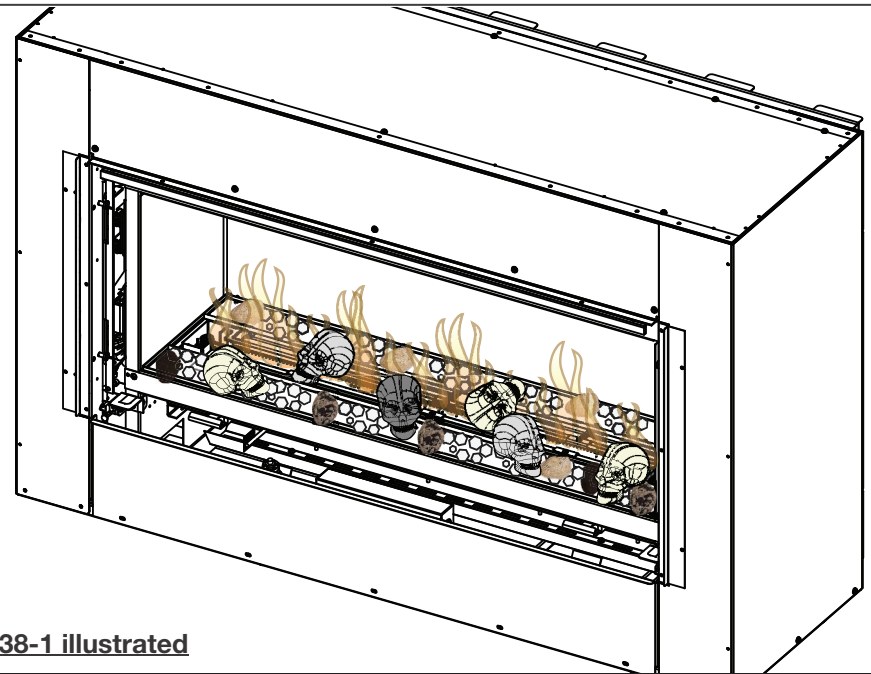

1 x black

Media Placement

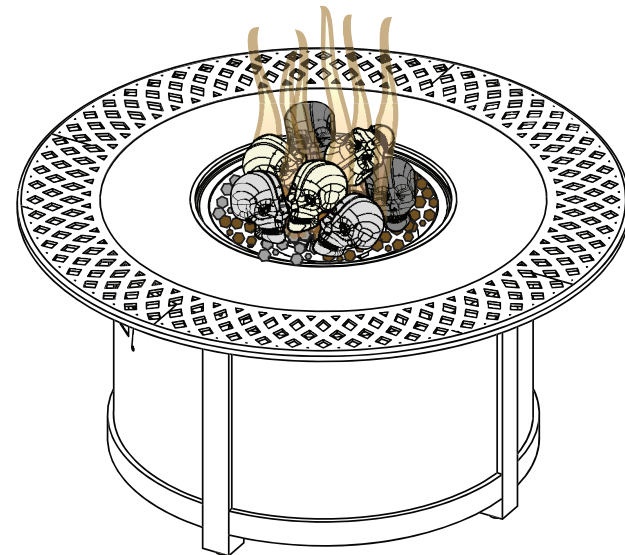

1. Turn off gas and electrical supply to the appliance.
2. Remove the appliance barrier and door.
3. **FOR LINEAR MODELS:** Randomly place the skulls around, but not on, the pilot opening. Skulls can cross the burner ports at a low flame (valley).
4. **FOR OUTDOOR MODELS:** Randomly place the skulls on and around the burner as desired.
5. Reinstall appliance door and barrier.
6. Turn on gas and electric supply to the appliance.

note:

If carbon is present, repositioning may be required.
