

Congratulations on your purchase of this bulk offering of Oxbow hay – the ideal choice for pet parents who care about both premium nutrition AND value!

What's In the Box?

Delivering the value and larger volume of hay in this box requires a specific packaging process that does not allow for the hand-sorting step involved with our smaller sizes of hay. As a result, you might observe differences in color and texture, along with traces of field debris like dried plant material, soil, stones, weeds, and other components native to a hay field.

Bulk Hay Feeding Tips

To ensure a premium mealtime experience for your little one, we recommend carefully sorting through the hay as you offer it, removing any undesirable portions in the process. If sorting the hay by hand is not feasible, please opt for one of our pre-sorted hays (available in sizes 15oz to 9lbs for most varieties).

Questions or Concerns?

Our Consumer Service and Education Team is ready to assist! Reach out anytime – your feedback is the compass that guides us as we continually strive to enhance the happiness and well-being of your beloved pets.
