Tighten, but DO NOT strip out the H8 Screws.

In order to achieve an open and safe shooting lane for archery, it is recommended to double check all background objects that could become damaged.

Remove the Table Tennis Net and posts and install Archery Target Board into the Plastic Archery Target Board Holders **P16 & P17**.

To play archery, players will take turns shooting 3 arrows at the targets per turn. The player with the most points after 3 rounds is the winner.

WARNING: Always make sure there are no other people or pets in the path or near surroundings when playing this game because the arrows could cause physical harm or injury.

Shooting arrows should only be at the target. Adult supervision is highly recommended. Should the suction cup on any arrow come off, or if the arrow in any way becomes damaged or broken, do not use this arrow and discard this arrow immediately.

NOTE: Slightly dampen the suction cup on the arrow to help make it "Stick".

CAUTION ATTENTION

This is not a toy and is intended for use by or under the supervision of adults.

AIR POWERED HOCKEY:

1. This game is designed to be played with two (2) players, one at each end.
2. Play begins when the puck is placed on the playing surface. Players must hit the puck with the hand-held pushers and attempt to shoot into the opponent's goal.
3. One point is given when a puck is shot into the opponent's goal.
4. Winning: the winning goal is accomplished by being the first player to reach a predetermined score or by being the player to score the most points within a given period.

BILLIARDS:

In the course of play, a player must call each shot in advance, by indicating the ball to be made and the pocket into which it will be made. It is not necessary to indicate details such as cushions, banks, caroms, etc. Failure to make the shot as called results in a loss of turn. If the shot is made as called, then any other balls pocketed remain pocketed. However, if the called shot is not made and any other balls are pocketed, then the shooter's ball(s) that were pocketed would be spotted and any of the opponent's balls would remain pocketed.

In order to execute a Legal Shot, the first ball hit must be one of the balls in the shooter's group (stripes or solids) and the object ball must be pocketed or the cue ball or any object ball must come into contact with a rail. (Note: It is legal for the shooter to bank the cue ball off a rail before hitting the object ball.) A player who legally pockets a ball continues play until missing or committing a Foul. Once a player's ball group (stripes or solids) is pocketed, the player may play the 8 ball. Again, the player must clearly indicate the intended pocket, even if it appears obvious. A player who legally pockets all of his ball group and the 8 ball is the winner.

FOULS

1. Failure to execute a legal shot as defined above.
2. A scratch shot (shooting the cue ball into a pocket or off the table)
3. Moving or touching any ball by means other than legal play.
4. Shooting an intentional jump shot over another ball by scooping the cue stick under the cue ball. (A jump shot executed by striking the cue ball above center is legal.)
5. Using the 8 ball first in a combination shot when the table is not open.

TABLE TENNIS:

In singles, the server first makes a good service and then the receiver makes a good return. Thereafter, server and receiver alternately each make a good return. In doubles, the server first makes a good service and the receiver returns the ball. Then the partner of the server makes a good return, followed by the partner of the receiver returning the ball. Thereafter, each player alternately in that sequence makes a good return.

ARCHERY:

Players will take turns shooting 3 arrows at the targets per turn. The player with the most points after 3 rounds is the winner.

Congratulations! You have now assembled your Swivel Table. Please note the Care and Use instructions below to ensure many years of trouble free use of your Swivel Table.

CARE AND USE OF YOUR SWIVEL TABLE

1. Use only a suitable 120v AC household outlet, and insure the cord is not a trip hazard.
2. For long life and best play from your air hockey table, apply spray furniture polish to clean cloth and wipe down the playfield with air motor running to make the pucks slide faster before first play and frequently thereafter.
3. Use spray furniture polish to clean all exterior surfaces of your billiards table.
4. Use the Billiards Playfield brush provided to clean the cloth on the billiards table.
5. Use a carpenters level to properly level table using the leg levelers.
6. This product is intended for **INDOOR** use only.
7. **DO NOT** operate the motor if the cord is damaged in any way.
8. **DO NOT** sit, climb or lean on the table.
9. **DO NOT** drag the table when moving it. This will damage the legs.
10. **DO NOT** set drinks on the table.
11. It is suggested that this table be placed close to wall thus allowing the air motor cord to **NOT** be a trip hazard. Always turn air motor off when table is not in use.
12. If possible, cover table with a pool table cover or sheet when not used to keep playfield clean preventing any dust build up.
