

ABOUT PONTE VECCHIO

Ponte Vecchio has been family-owned and operated for over seventy years and has deep roots in Piedmont, Italy—a beautiful region at the base of the Alps with incredible cuisine and rich history in winemaking. The family is committed to finding the best wine regions and the varietals for which they are known. Representing the best of Italy.

THE WINEMAKING

Ponte Vecchio wines are produced using traditional winemaking methods. In Puglia, fully mature grapes are harvested by hand and fermented at controlled temperatures in stainless steel tanks to preserve freshness and fruit character. A portion of the wine is aged in oak for added structure and complexity, while the remainder stays in stainless steel to maintain balance. Once fermentation is complete, the wine is filtered and bottled to ensure quality and consistency.

KEY SELLING POINTS

- Over 70 Years of Family Winemaking Heritage: Family-owned since its founding in Piedmont, Italy – a region famous for rich cuisine and world-class wines.
- Certified Sustainable (EQUALITAS): Ponte Vecchio is committed to eco-friendly practices that enhance wine quality and reduce environmental impact.
- Proven Regional Authenticity: Each wine is crafted in Italy's most celebrated regions – Tuscany, Piedmont, Puglia, and Veneto – offering consumers genuine regional expression and trusted quality.
