

M MADDALENA WINES

2024
RIESLING

VINEYARD

The 2024 Maddalena Riesling is sourced from Rancho Soledad Vineyard in Monterey, an estate site shaped by the region's coastal climate. Morning fog, cool ocean air, and steady afternoon winds moderate summer heat, allowing Riesling to ripen slowly while preserving natural acidity. The vineyard's Placentia sandy loam soils support clean varietal expression and balanced fruit development.

VINTAGE

The 2024 growing season in Monterey was characterized by a cool, extended ripening period with strong coastal influence. Mild summer temperatures and consistent afternoon winds helped preserve acidity, while long hang time allowed for slow, even flavor development. These conditions produced bright, expressive fruit with excellent balance and purity.

SUSTAINABILITY

Sustainability remains a top priority for Maddalena. Our Paso Robles and Monterey vineyards are certified sustainable by the California Sustainable Winegrowing Alliance, reflecting a long-term commitment to responsible farming and preserving the quality of our estate-grown fruit.

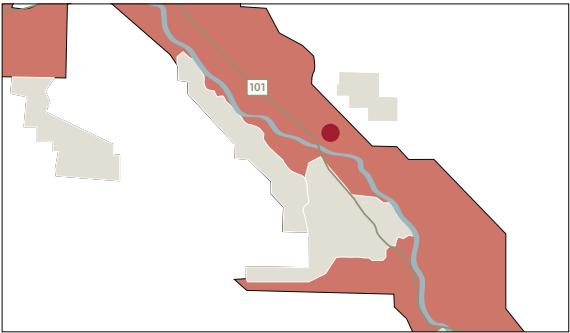

WINEMAKER NOTES

Fermented in stainless steel to protect freshness and varietal aromatics, the 2024 Maddalena Riesling is crafted from 100% Riesling. The wine maintains a gentle natural sweetness through fermentation, creating a bright, refreshing style that is balanced rather than overly sweet.

TASTING NOTES

Aromas of lime blossom, citrus zest, green apple, and white peach lead into flavors of bright lemon, nectarine, and subtle honeyed floral character. The palate is crisp and vibrant with a touch of sweetness, finishing clean and lively. Pair with sushi, grilled shrimp, or spicy Thai dishes.
