

SPRITZ DEL CONTE

SIX STEPS TO SPRITZ

HOW TO SELL SPRITZ DEL CONTE WITH STYLE

1

CHILLED SPRITZ DEL CONTE

Begin the day with an ice-cold Spritz Del Conte. Keeping the product at a colder temperature at all times will help the beverage retain its effervescence.

3

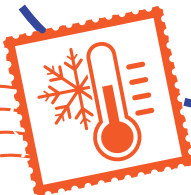

MAKE THE FLAVORS POP!

Bring pre-cut fresh orange wheels to garnish. This brings out the bright, natural citrus flavors of Spritz Del Conte.

5

MAINTAIN TEMPERATURE

Keep Spritz Del Conte cold throughout the day even if you're serving it over ice. A cold bottle ensures a consistently crisp and effervescent drink.

6

OPEN FRESH BOTTLES AS NEEDED

Constant motion, opening, closing, and temperature fluctuations will make Spritz Del Conte lose its effervescence at an accelerated pace. Open a new bottle when it begins to lose its sparkle.
