Limitation of Liability: The supplied materials should be thoroughly inspected immediately upon receipt by the recipient for all content, placement and copy accuracy. It is also the responsibility of the recipient printer to examine and proof read all supplied materials before producing image carriers and printing final product. Should the supplied materials be found to be incorrect please contact an SGS representative immediately. The liability of SGS shall be limited to correcting its own product, SGS will not be responsible for any loss or damage including but not limited to the cost of product, print, image carriers, press delays, or other ancillary cost.												

PROOF FOR PROCESS
COLOR MATCH ONLY

Date Code Area – No critical Art. Background green must extend 1” up from pouch bottom for date coding.

- Tear notch must be centered in tear gap and can never be in the top seal area; frown tear notch not to be used when no zipper is present.
- If print extends into heat seal area, it must be protected from pickup on sealing bars.
- UPC Code, if applicable, must be parallel to the web direction.
- Date code area must be continuous solid ink or screen with 25% minimum gray value. No graphic objects, photos or text. Multiple solid colors and screens are acceptable with a maximum of 10% gray value variation between all colors within the date code area.
- Extend art into trim areas.
- Printer registration process color bars, as required for any purpose, are to be printed as small as possible in the most discrete location on the pack.

APPROVED:

SGS_STL 6417193-1
