STORAGE AND DISPOSAL
Do not contaminate water, food, or feed by storage and disposal.

PESTICIDE STORAGE
Store in original container in a cool, dry place, out of the reach of children, preferably a locked storage cabinet. Protect from freezing.

PESTICIDE DISPOSAL AND CONTAINER HANDLING
If Empty:
- Non-refillable container. Do not reuse or refill this container
- Place empty container in trash or offer for recycling if available.

If Partly Filled:
- Call your local solid waste agency for disposal instructions.
- Never place unused product down any indoor or outdoor drain.

FIRST AID
IF IN EYES
- Hold eye open and rinse slowly and gently with water for 15 - 20 minutes.
- Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
- Call a poison control center or doctor for treatment advice.

NOTE: When calling a poison control center at 1-800-222-1222, have this product label accessible. If seeking treatment at an emergency room or doctor's office, bring this product label to show medical personnel. **You may call toll-free 877-229-3763 for medical emergency information.**

PRECAUTIONARY STATEMENTS
Hazards to Humans and Domestic Animals
CAUTION
Causes moderate eye irritation. Avoid contact with eyes or clothing. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet.

ENVIRONMENTAL HAZARDS
To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters, or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Rinsing application equipment over the treated area will help avoid run off to water bodies or drainage systems.

PHYSICAL OR CHEMICAL HAZARDS
Do not mix or allow coming in contact with oxidizing agent. Hazardous Chemical reaction may occur.

PEEL HERE

DIRECTIONS FOR USE It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

BEFORE USE

Read and follow all label directions.

This product will kill or injure all listed woody plants contacted. Certain warm season grasses may experience temporary yellowing when sprayed to excess.

- If a desirable plant (other than grass) is accidentally sprayed, immediately rinse with plenty of water.
- Apply when wind is calm.
- Keep people and pets off treated areas until spray has dried.
- Do not apply to or around fruits or vegetables used for food.
- Do not apply more than 9lb ae/A Triclopyr (17 fl. oz. brush killer per 500 square feet) per year.

HOW MUCH TO USE

Measure area to be sprayed. Calculate 'square feet' by multiplying length times width. This bottle treats up to 4,000 square feet.

HOW TO USE

CONNECT

1. Shake well before use.
2. Securely Connect sprayer to garden hose.
3. Be sure that ON/OFF Switch is in OFF position, toward hose end of sprayer.
4. Turn on water at faucet.
5. For first time use, remove plastic shipping lock from beneath switch.

SPRAY

1. Extend hose to farthest area to be treated, point sprayer nozzle in direction to be sprayed.
2. Begin spraying - Push ON/OFF Switch forward into ON position.
3. Walk at a steady pace while spraying, using an even sweeping motion, and slightly overlap treated areas. Work back toward faucet to avoid walking over wet, treated grass.

FINISH

1. To stop spraying, push ON/OFF Switch to OFF position.
2. Turn off water at faucet.
3. Relieve water pressure in hose by turning ON/OFF Switch back to ON position until water slows to a drip, then return ON/OFF switch to OFF position.
4. Disconnect sprayer from hose.

TIPS:

- Use a sheet of cardboard or plastic to protect desirable trees, shrubs, and plants from accidental contact with the product.
- To Kill Poison Ivy or Poison Oak

  Contact with Poison Ivy or Poison Oak anytime of the year can cause an allergic reaction. Handle dead plants with rubber gloves. Dispose of plants and gloves in tightly sealed garbage bags.

FOR BEST RESULTS

- Apply when listed weeds are fully leafed out and actively growing.
- Apply the product until plant is thoroughly covered (first drip).
- Rain or water 4 hours after application will not wash away effectiveness.
- Certain hard-to-kill weeds may require a repeat application if regrowth occurs.
- If regrowth occurs, apply again 30 days or more after the initial application.

HOW IT WORKS

This selective systemic herbicide enters plants through their leaves, green or cut woody shoots, and roots then moves throughout the plant and interferes with processes found only in plants. Visual symptoms, such as wilting and yellowing, appear in 1 to 28 days
