## ROSÉ V.S.

### PROSECCO D.O.C.

**Stella Rosa Rosé V.S. Prosecco D.O.C** is a naturally sparkling wine produced from 85% Glera and 15% Pinot Noir in the northwestern province of Piedmont. This dry sparkling wine bursts with notes of berries and roses, begging to be paired with any celebration.

#### Winemaking:

After being harvested, the grapes are pressed and fermented in Charmat-style, pressurized tanks. During the fermentation process, the alcohol is created in tandem with the wine's natural carbonation. The resulting wine is a dry Rosé that is fully sparkling.

#### Pairings:

Because of the wine's natural acidity and bubbles, Stella Rosa Gold Prosecco Rosé is the perfect accompaniment for any occasion. Pair with grilled meats and poultry, goats' cheese, and any of life's celebrations. The natural sweetness and lively effervescence of this wine allows for a wonderful standalone apéritif or a perfect cocktail mixer.
