

# TECHNICAL DATA SHEET

## 347 Seal-Tape

**For permanent airtight and watertight sealing on outdoor sarking and facing membranes.**

### Properties

- Sticks to low surfaces engery plastics such as PE and PP films
- Very high adhesive strength even at low temperatures
- UV resistant

### Area of Use

- For permanent airtight and watertight sealing on outdoor sarking and facing membranes.
- Suitable for all common vapour barriers

### Technical Data

- Backing: reinforced LDPE-film
- Adhesive: Acrylic
- Adhesion to Stainless Steel : 12 N / 10 mm
- Thickness: 0,30 mm

-40 bis +70°C
