SDS EXEMPTION STATEMENT

This product is considered a "consumer product" under OSHA's regulations, 29 CFR §1910.1200. "Consumer Products", as defined by the US Consumer Product Safety Act and which are used as intended (typical consumer duration and frequency), are exempt from the OSHA Hazard Communication Standard (29 CFR 1910.1200). Under normal conditions of intended use, this product does not pose a physical hazard or health risk. In Canada, WHMIS-controlled products are regulated under the Hazardous Products Act (HPA) and associated Controlled Products Regulations (CPR). Section 13 of the HPA requires suppliers to transmit SDSs to customers. However, this product is classified as non-hazardous, is not WHMIS-controlled under the HPA, and does not require an SDS to be transmitted. This finished product is supplied in retail packaging and every effort is made to provide customers with a product which is properly labeled and safe for its intended use. The U.S. Department of Transportation limits the transfer of hazardous material. This product is non-hazardous; therefore, it is exempt from U.S. DOT regulations. This product is non-flammable and non-combustible, therefore not considered hazardous in transport.
